IRIS COLLECTION

Nossa Inspiração / *Lo que nos inspira / L'Inspiration*

Veneza Portuguesa, é o nome dado á nossa cidade Aveiro, pequena cidade na costa do oceano atlântico. Os seus canais, os seus edifícios modernos, suas casas tradicionais e os afamados armazéns de sal fazem única a beleza de Aveiro. É uma cidade repleta de cor que é inspiradora por si só. A alguns kilometros e banhada pelo mesmo oceano, encontra-se a cidade do Porto conhecida pela Ponte D. Luis, reconhecida pelo seu imponente arco de aço. O design Belone respira as cores de Aveiro e reflete admiração pelas linhas e formas desta estrutura emblemática.

Portuguese Venice, the name given to our city Aveiro, is a small town on the Atlantic Ocean coast. Its canals, modern buildings, its traditional houses and the famous salt barns offer to Aveiro a unique beauty. It is a city full of color that inspires by herself. Bathed in the same ocean we have Oporto where the bridge D. Luis is located, which is characterized by its imposing arch of steel. The Belone design breathes the colors of Aveiro and reflects admiration for the lines and shapes of this flagship Infrastructure.

La Venecia Portuguesa, así llaman a nuestra tierra, Aveiro. Una pequeña ciudad a la orilla del Océano Atlántico. Sus canales, sus edificios modernos, sus tradicionales casas y los almacenes de sal dotan a Aveiro de una gran belleza. Un lugar repleto de color que inspira por sí solo. Bañado por el mismo océano, se encuentra en Oporto el Ponte de Don Luís, que se caracteriza por su gran e imponente arco de acero. Los diseños de Belone respiran los colores de Aveiro y reflejan la admiración por las líneas y formas de esta emblemática infraestructura.

Venise Portugaise, c'est le nom donné à notre ville, Aveiro c'est une petite ville sur la côte Atlantique. Ses canaux, ses immeubles modernes, des maisons traditionnelles et les célèbres greniers à sel confèrent à Aveiro une beauté unique. C'est une ville, pleine de couleurs, qu'inspire par soi-même. Pas très loin et baigné par le même océan se trouve la ville de Porto, connu par le pont D.Luis reconnu par son imposante voûte d'acier. Le design de Belone respire les couleurs d'Aveiro et reflète l'admiration pour les lignes et les formes de cette structure iconique.

Q16 COLLECTION

O mundo está em constante mudança assim como as necessidades de arrumação. Com a utilização cada vez maior das clouds, as estantes começam a ter um peso decorativo nos escritórios modernos. O sistema estantes Q16 com as suas linhahs simples é o palco perfeito para realçar os nossos objectos. A Q16 pode ganhar novas formas e tamanhos, através dos seus componenets e acessórios para melhor corresponder com o estilo de cada cliente. Partindo de uma configuração simples com um tensor X, modifica-se e adapta-se de acordo com as preferências e necessidades de cada um. Q16 permite criar zonas distintas dentro do mesmo espaço utilizando o acessório “costa” para criar um efeito de transparência, consoante o número de “costas” que utilize. Na continuidade de um escritório moderno e versátil introduzimos o elemento tabuleiro às nossas prateleiras de forma a conseguir uma melhor arrumação para os mais diferentes objectos. Numa versão minimalista e actual o sistema Q16 tem como cores base o branco, o preto e o antracite e para que cada cliente possa adaptar ao seu gosto, com as cores principais como o amarelo e o vermelho. A base de toda a linha Q16 é constiuida por tubos quadrados de 16mm e prateleiras em chapa de 1mm, apesar de um aspecto muito elegante suporta até 60kg por prateleira, o que as tornam aptas para qualquer utilização em casa ou escritório. A estabilidade das estantes são garantidas pelos acessórios, tensores e fundos. as prateleiras em formato tabuleiro são feitas em tubo rectangular 50x15.

The world is constantly changing as well as the storage needs. With the increasing use of the clouds, the shelves begin to have a decorative weight in modern offices. The Q16 shelving system with its simple lines is the perfect stage to highlight our objects. The Q16 can gain new shapes and sizes, through its components and accessories to better match the style of each customer. Starting from a simple configuration with a tensioner X, it is modified and adapts according to the preferences and needs of each one. Q16 allows you to create distinct zones within the same space using the “back” accessory to create a transparency effect, depending on the number of “backs” you use. Following a modern and versatile office we introduce the element tray to our shelves in order to obtain a better storage for the most different objects. In a minimalist and actual version, the Q16 system as his standard colors on white, black and anthracite so that each customer can adapt to their taste the signal colors that are yellow and red. The base of all the shelves consists of the structure with 16mm square tubes and 1mm sheet metal shelves. For greater stability enhancement the shelf is composed of an x-shaped tensioner made of 6mm tubular steel. The tray shelves are made with a 60x20mm tubular ring.

Areia Studio Concept

AREIA STUDIO COLLECTION

Intemporal e universal. O design universal e o sistema modular permitem adaptá-los a qualquer espaço de escritório. A AREIA STUDIO CONCEPT não são apenas mesas de trabalho, mas também soluções de armazenamento, reunião e recepção de mobiliário, ideais para quem deseja criar espaços de trabalho individuais / colaborativos e usufruir de um espaço de escritório conveniente. A privacidade é importante para ajudar os funcionários a manter a concentração. Escolha os nossos painéis mais adequados para eles. Existem duas opções que podem atender às suas necessidades: o tecido acústico do Gabriel ou as divisórias em melamina. No escritório, muitas vezes temos que lidar com múltiplos cabos, assim como pequenos locais de trabalho. Escolha a estação de trabalho AREIA com uma área de empurrar/puxar. O tabuleiro de cabos, o acesso à unidade de energia e o manuseamento dos cabos serão muito mais convenientes, sendo estas mesas baseadas num princípio muito simples: para acessar a bandeja de cabos, puxe a mesa em direção a você; Se quiser esconder os cabos, simplesmente basta empurrar a área de trabalho ligeiramente.

Timeless and universal. The universal design and the modular system allow you to adapt them to any office space. AREIA STUDIO CONCEPT is not only desks but also storage, meeting and reception furniture solutions which are ideal for those who want to set up work spaces for individual/collaborative work and to enjoy a convenient office space. It's important some privacy to help the workers maintain their concentration. Choose our panels that are most suitable for them. There are two options that can suit your needs: acoustic fabric from Gabriel or melamine partitions. In the office, we often have to deal with multiple cables and small workplace. Choose AREIA workstation with a push/pull desktop. The arrangement of the cable tray, the access to the power unit and cable management will be much more convenient. These desks are based on a very simple principle: to access the cable tray, pull the desktop toward yourself; if you want to conceal the cables, then simply push the desktop slightly.
