Shikokuchuo City Civic Cultural Hall

AI Sekkei Corp.

The Shikokuchu Hall (Shikokuchuo City Cultural Hall) has two halls, the smaller of which is nicknamed "Karuta".

The seating consists of movable telescopic platforms (rolling chair stands) that can be folded out and folded in by pressing a remote control button, and stacking chairs with folding seats. The floor in front of the stacking chairs is electrically operated to raise and lower the chairs when the maximum number of seats is required. With the use of a remote control, the stage area and the seating area can be brought to the same level.

El Salón de Shikokuchu (Salón Cultural de la Ciudad de Shikokuchuo) cuenta con dos salas, la más pequeña de las cuales es apodada "Karuta".

Los asientos se componen de gradas telescópicas móviles (soportes de sillas enrollables) que pueden desplegarse y replegarse pulsando un botón de control remoto, y de sillas apilables con asientos abatibles. El suelo delante de las sillas apilables se acciona eléctricamente para subir y bajar las sillas cuando se necesita el número máximo de asientos. Con el uso de un mando a distancia, la zona del escenario y la de los asientos pueden ponerse al mismo nivel.

Shikokuchuo City Civic Cltural Hall

Aug 2019 / Seats: 212

Ehime, Japan

The stackable chairs can be placed on a trolley and stored in the storage room, while the mobile bleachers can be stored flush against the wall at the back of the hall. It is also suitable for rehearsals, as the flat floor is almost as big as the stage in the main hall.

This multi-purpose room can be used for various purposes; from performances to rehearsals, as well as for exhibitions and receptions.

Las sillas apilables pueden colocarse en un carro y guardarse en el almacén, mientras que las gradas móviles pueden guardarse enrasadas en la pared de la parte posterior de la sala. También es adecuado para los ensayos, ya que el suelo plano es casi tan grande como el escenario de la sala principal. Esta sala polivalente puede utilizarse para varios usos; desde actuaciones hasta ensayos, así como para exposiciones y recepciones.

There are 140 movable seats and 72 stackable chairs. All the chairs can be used to create a hall of up to 212 seats, or just the movable bleachers and stacking chairs. The chairs have been designed and upholstered in the same material to give a uniform look when combined.

Hay 140 asientos móviles y 72 sillas apilables. Se pueden utilizar todas las sillas para crear una sala de hasta 212 plazas, o sólo las gradas móviles y las sillas apilables. Las sillas se han diseñado y tapizado en el mismo material para dar un aspecto uniforme cuando se combinan.

Waseda University

Yamashita Sekkei

Waseda University's sports facility was the "Memorial Hall" built on the Toyama Campus in 1957 to commemorate the 75th anniversary of the university's founding and was chosen as the venue for fencing at the 1964 Tokyo Olympics, as well as for the university's entrance and graduation ceremonies. As the face of Waseda University, it has been familiar to many students along with the Okuma Memorial Auditorium, but in recent years, the building has become noticeably aged, and the decision was made to rebuild it.

La instalación deportiva de la Universidad de Waseda fue el "Memorial Hall", construido en el campus de Toyama en 1957 para conmemorar el 75º aniversario de la fundación de la universidad, y fue elegido como sede de la esgrima en los Juegos Olímpicos de Tokio de 1964, así como para las ceremonias de entrada y graduación de la universidad. Como cara de la Universidad de Waseda, ha sido familiar para muchos estudiantes junto con el Auditorio Conmemorativo Okuma, pero en los últimos años, el edificio ha envejecido notablemente, y se tomó la decisión de reconstruirlo.

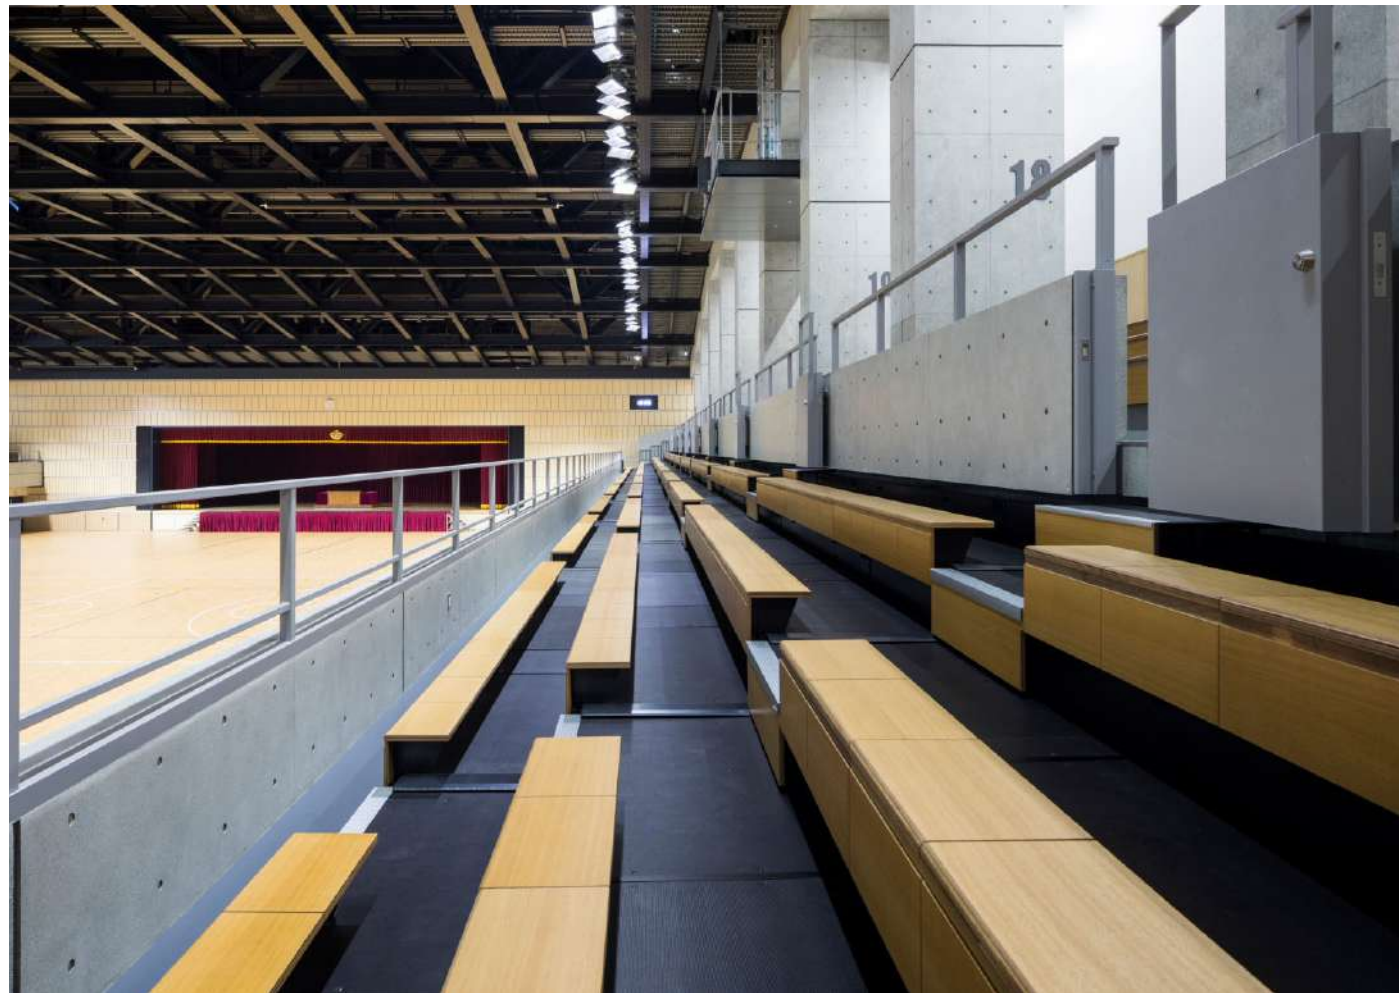

Waseda University

Dec 2018 / Seats: 1.840

Tokyo, Japan

Waseda Arena, which was completed in December 2018, is a multi-purpose facility that includes a sports museum and learning commons. The main arena spans the ground floor to the second floor underground, and a hilly area spreads across the rooftop space above it. This rooftop space, which has a gentle slope from the shape of the campus, blends into the green scenery and hides the presence of the main arena underground.

Waseda Arena, que se terminó de construir en diciembre de 2018, es una instalación polivalente que incluye un museo del deporte y zonas comunes de aprendizaje. El estadio principal abarca desde la planta baja hasta la segunda planta subterránea, y una zona de colinas se extiende por el espacio de la azotea que hay sobre él. Este espacio en la azotea, que tiene una suave pendiente por la forma del campus, se funde con el paisaje verde y oculta la presencia del estadio principal bajo tierra.

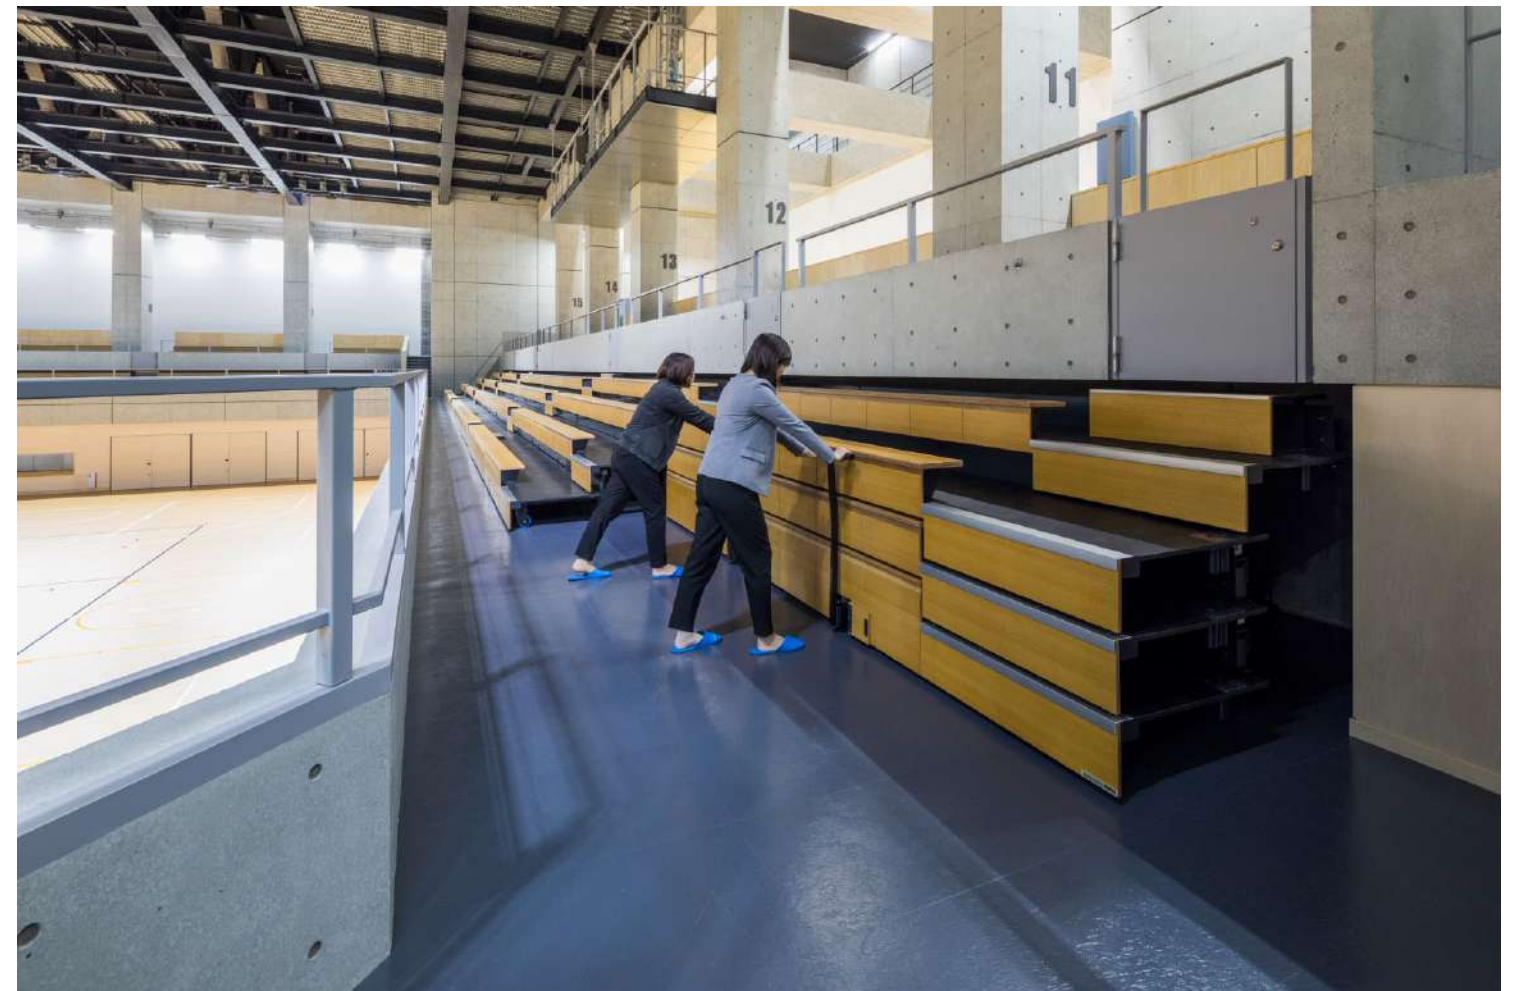

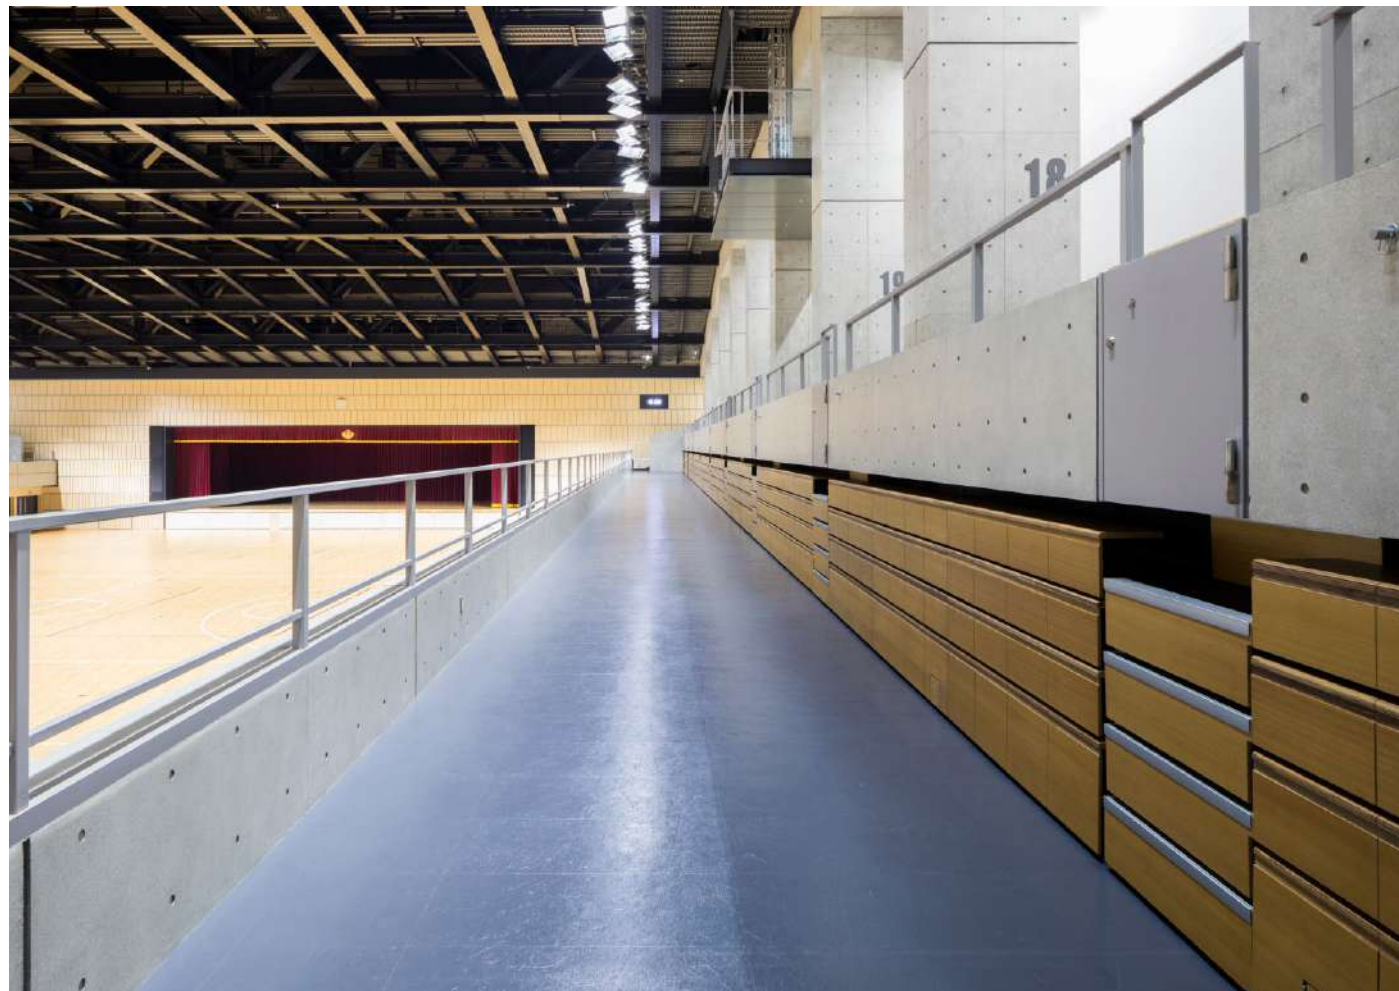

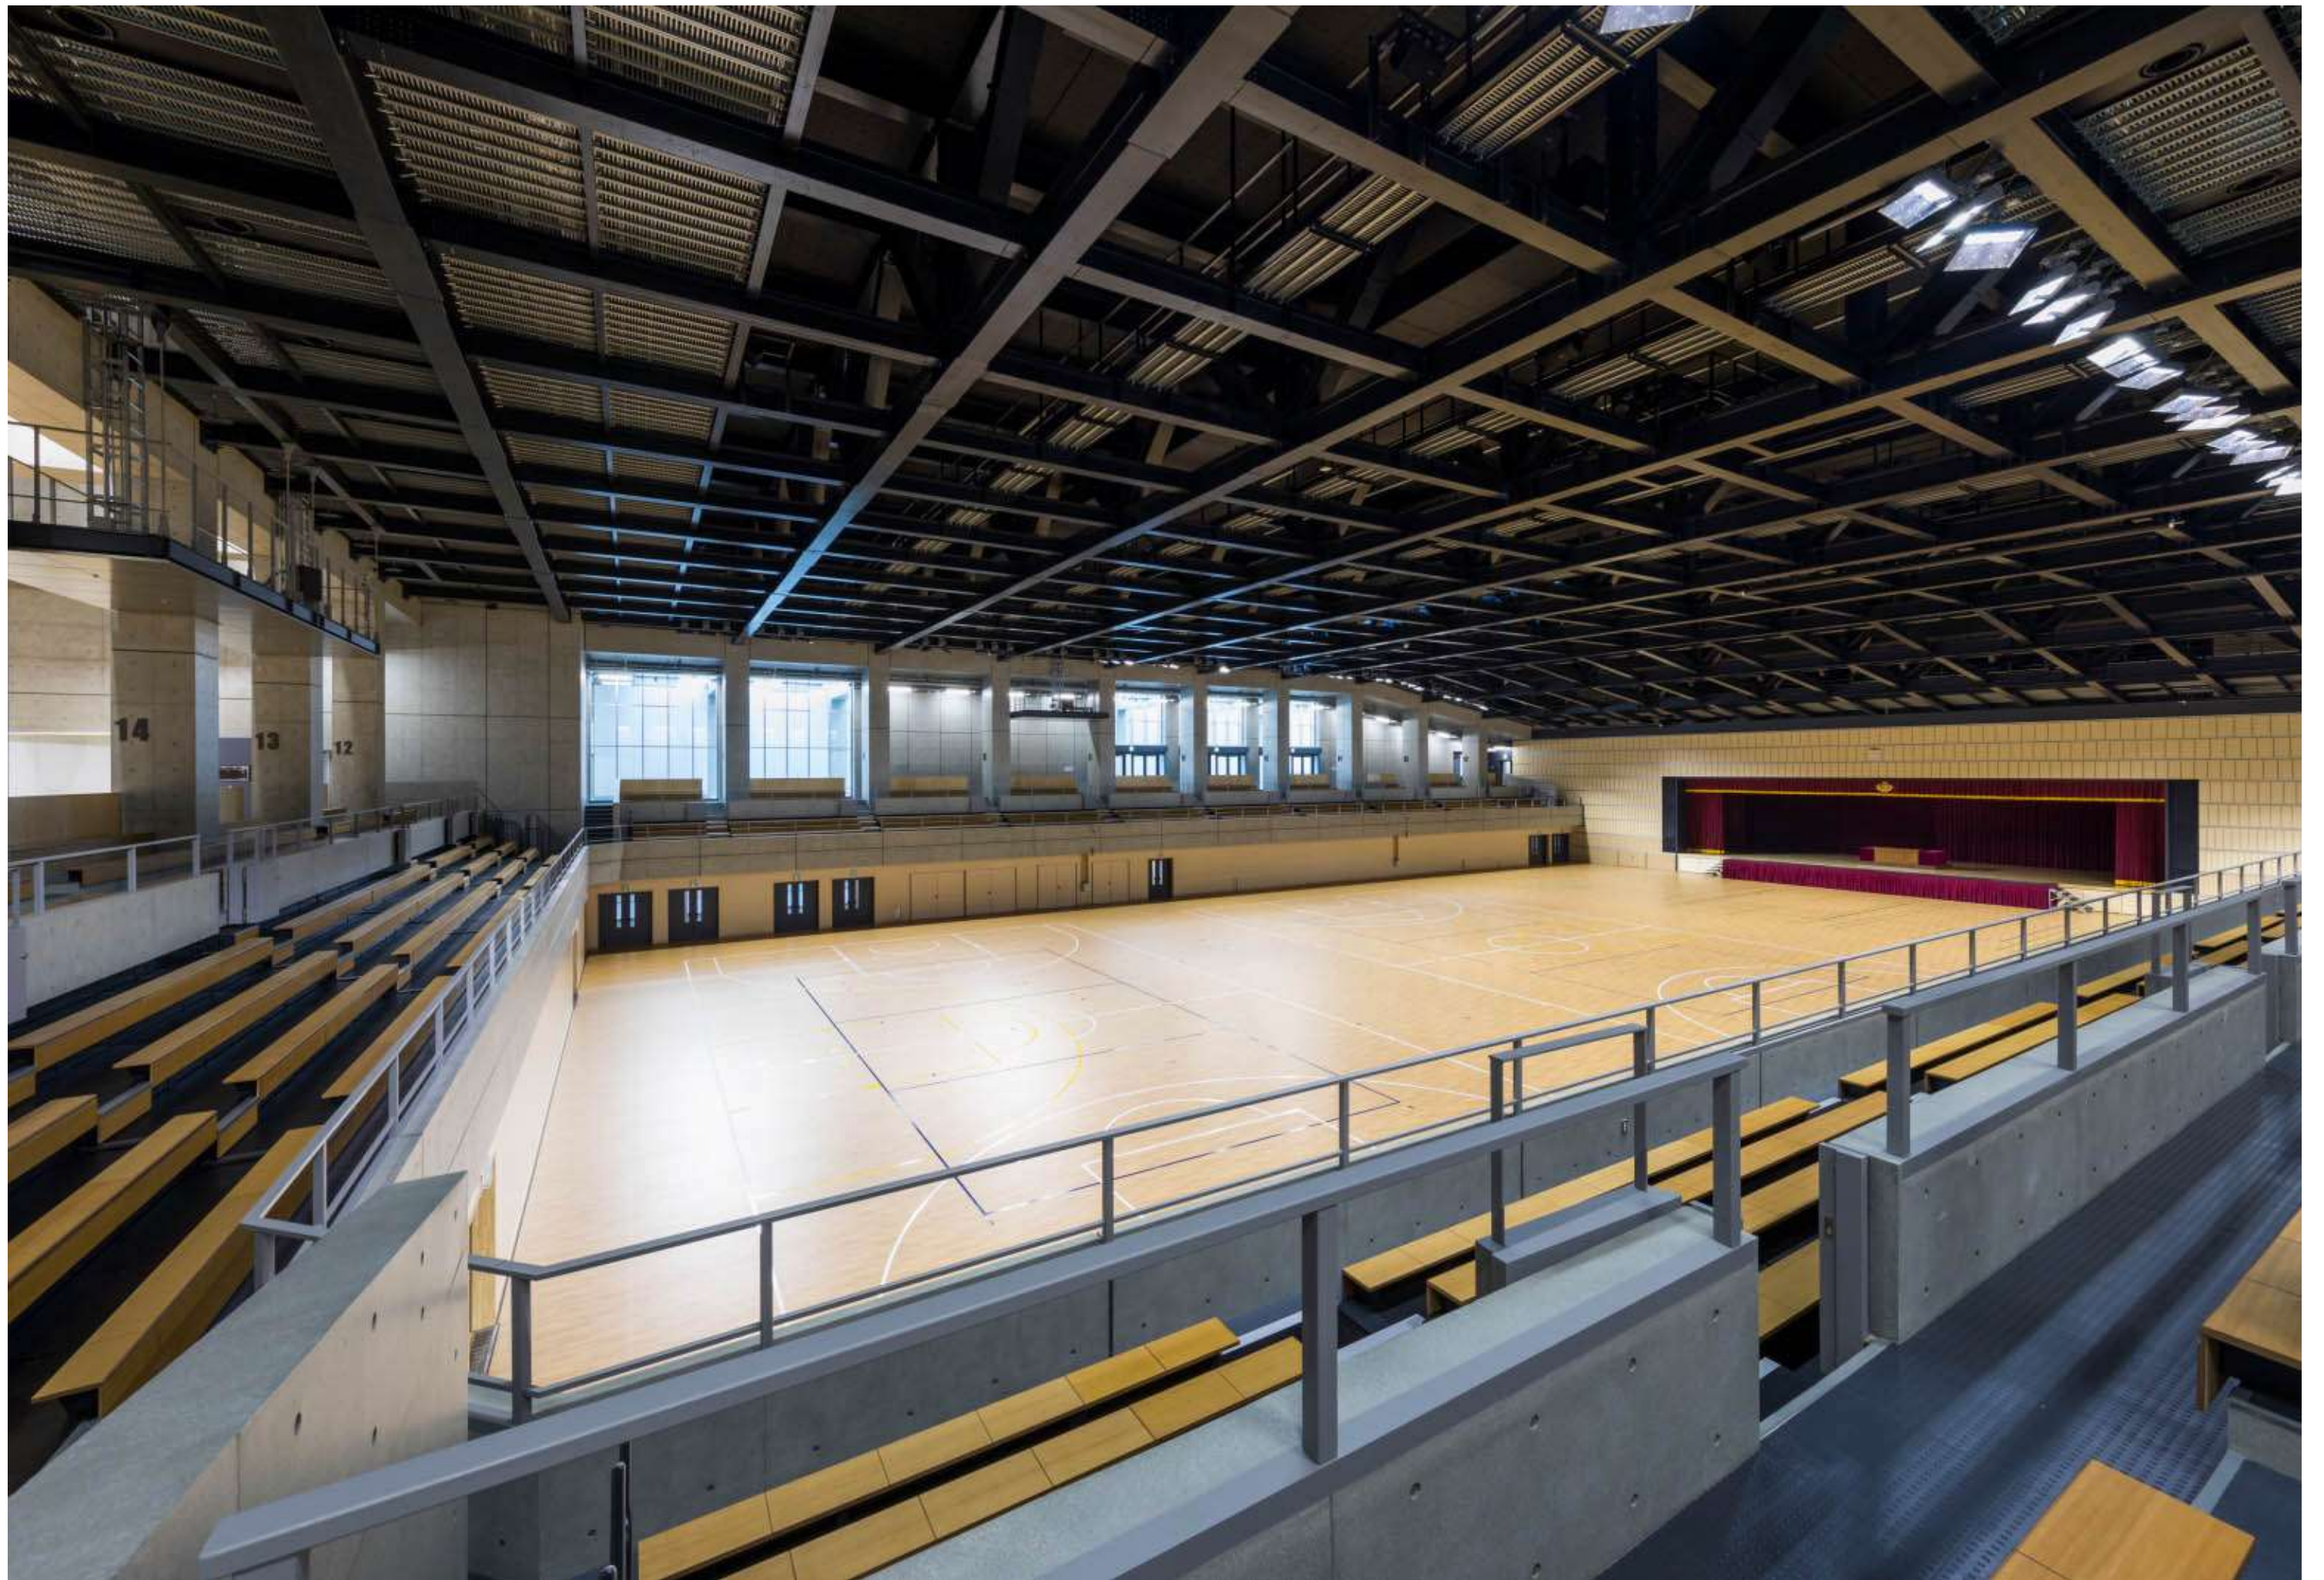

The second floor of the main arena, which surrounds the floor in a C-shape, is lined with retractable seating and fixed seating. When expanding the retractable seating, a total of 1.840 seats can be set up. We decided to implement retractable seating based on the desire of the university to be able to utilize the space for running or dance practice when the spectator seats are not necessary.

The retractable seating, which is stored in the wall, can be pulled out using a lever. Since the seats in the form of a bench, they are lighter than seats with backrests. A total of 26 blocks of retractable seating are stored in all walls of the second floor. Each block of retractable seating has 32-48 seats. 8 to 12 people can sit on each row.

El segundo piso del estadio principal, que rodea la pista en forma de C, está revestido de asientos retráctiles y fijos. Al ampliar los asientos retráctiles, se pueden instalar un total de 1.840 asientos. Decidimos implantar los asientos retráctiles por el deseo de la universidad de poder utilizar el espacio para las prácticas de atletismo o danza cuando los asientos de los espectadores no sean necesarios.

Los asientos retráctiles, que se guardan en la pared, pueden extraerse mediante una palanca. Como los asientos tienen forma de banco, son más ligeros que los asientos con respaldo. Hay un total de 26 bloques de asientos retráctiles almacenados en todas las paredes de la segunda planta. Cada bloque de asientos retráctiles tiene entre 32 y 48 asientos. En cada fila pueden sentarse de 8 a 12 personas.

KOTOBUKI SEATING GROUP

Higashi chikushi College

AI Sekkei Corp.

Higashi Chikushi Gakuen has a history of over half a century in Kitakyushu City, Fukuoka Prefecture. The school features specialized education in the Childcare and Food and Nutrition departments, as well as the Beauty and Fashion Business and Nursing and Welfare departments. In April 2019, a new auditorium and gymnasium was built.

Higashi Chikushi Gakuen tiene una historia de más de medio siglo en la ciudad de Kitakyushu, prefectura de Fukuoka. La escuela cuenta con educación especializada en los departamentos de Puericultura y Alimentación y Nutrición, así como en los departamentos de Belleza y Negocios de Moda y Enfermería y Bienestar. En abril de 2019, se construyó un nuevo auditorio y gimnasio.

Higashi chikushi College

April 2019 / Seats: 1.600

Fukuoka, Japan

Auditorium and gymnasium functions are combined through the introduction of mobile telescopic platforms.

The facility consists of two levels, with the first floor being large enough for two basketball courts. What makes this space function both as an auditorium and a gymnasium is the mobile telescopic platforms, a staircase of seats that can be stored in the wall. A total of 450 seats, 18 meters wide by 15 steps, can be stored and deployed at the touch of a remote-control button.

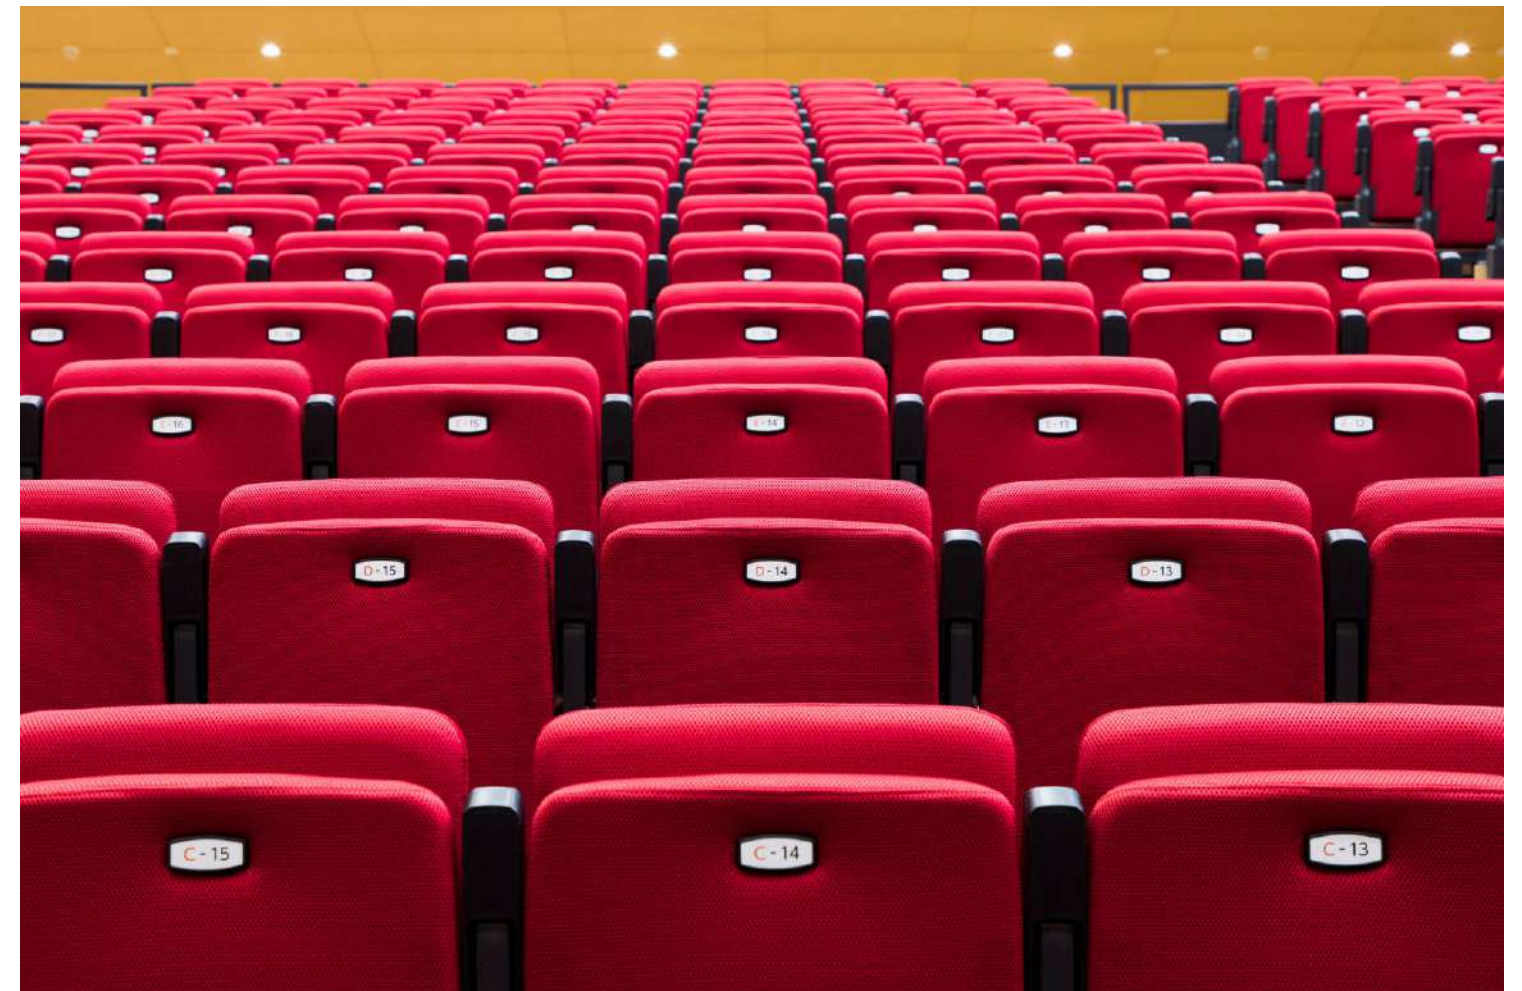

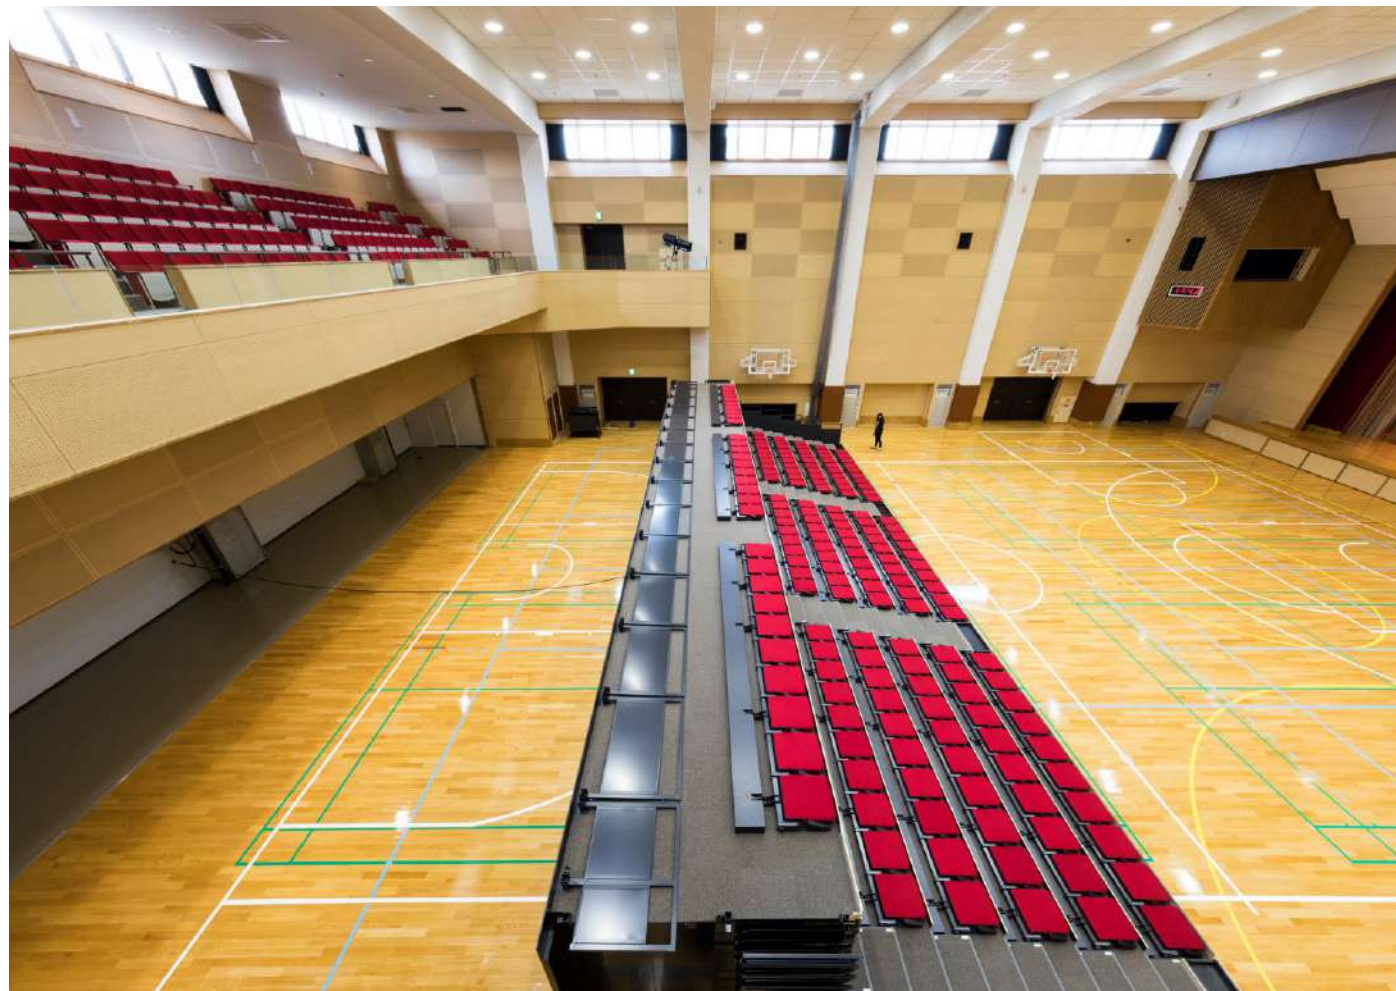

Las funciones de auditorio y gimnasio se combinan mediante la introducción de plataformas telescópicas móviles.

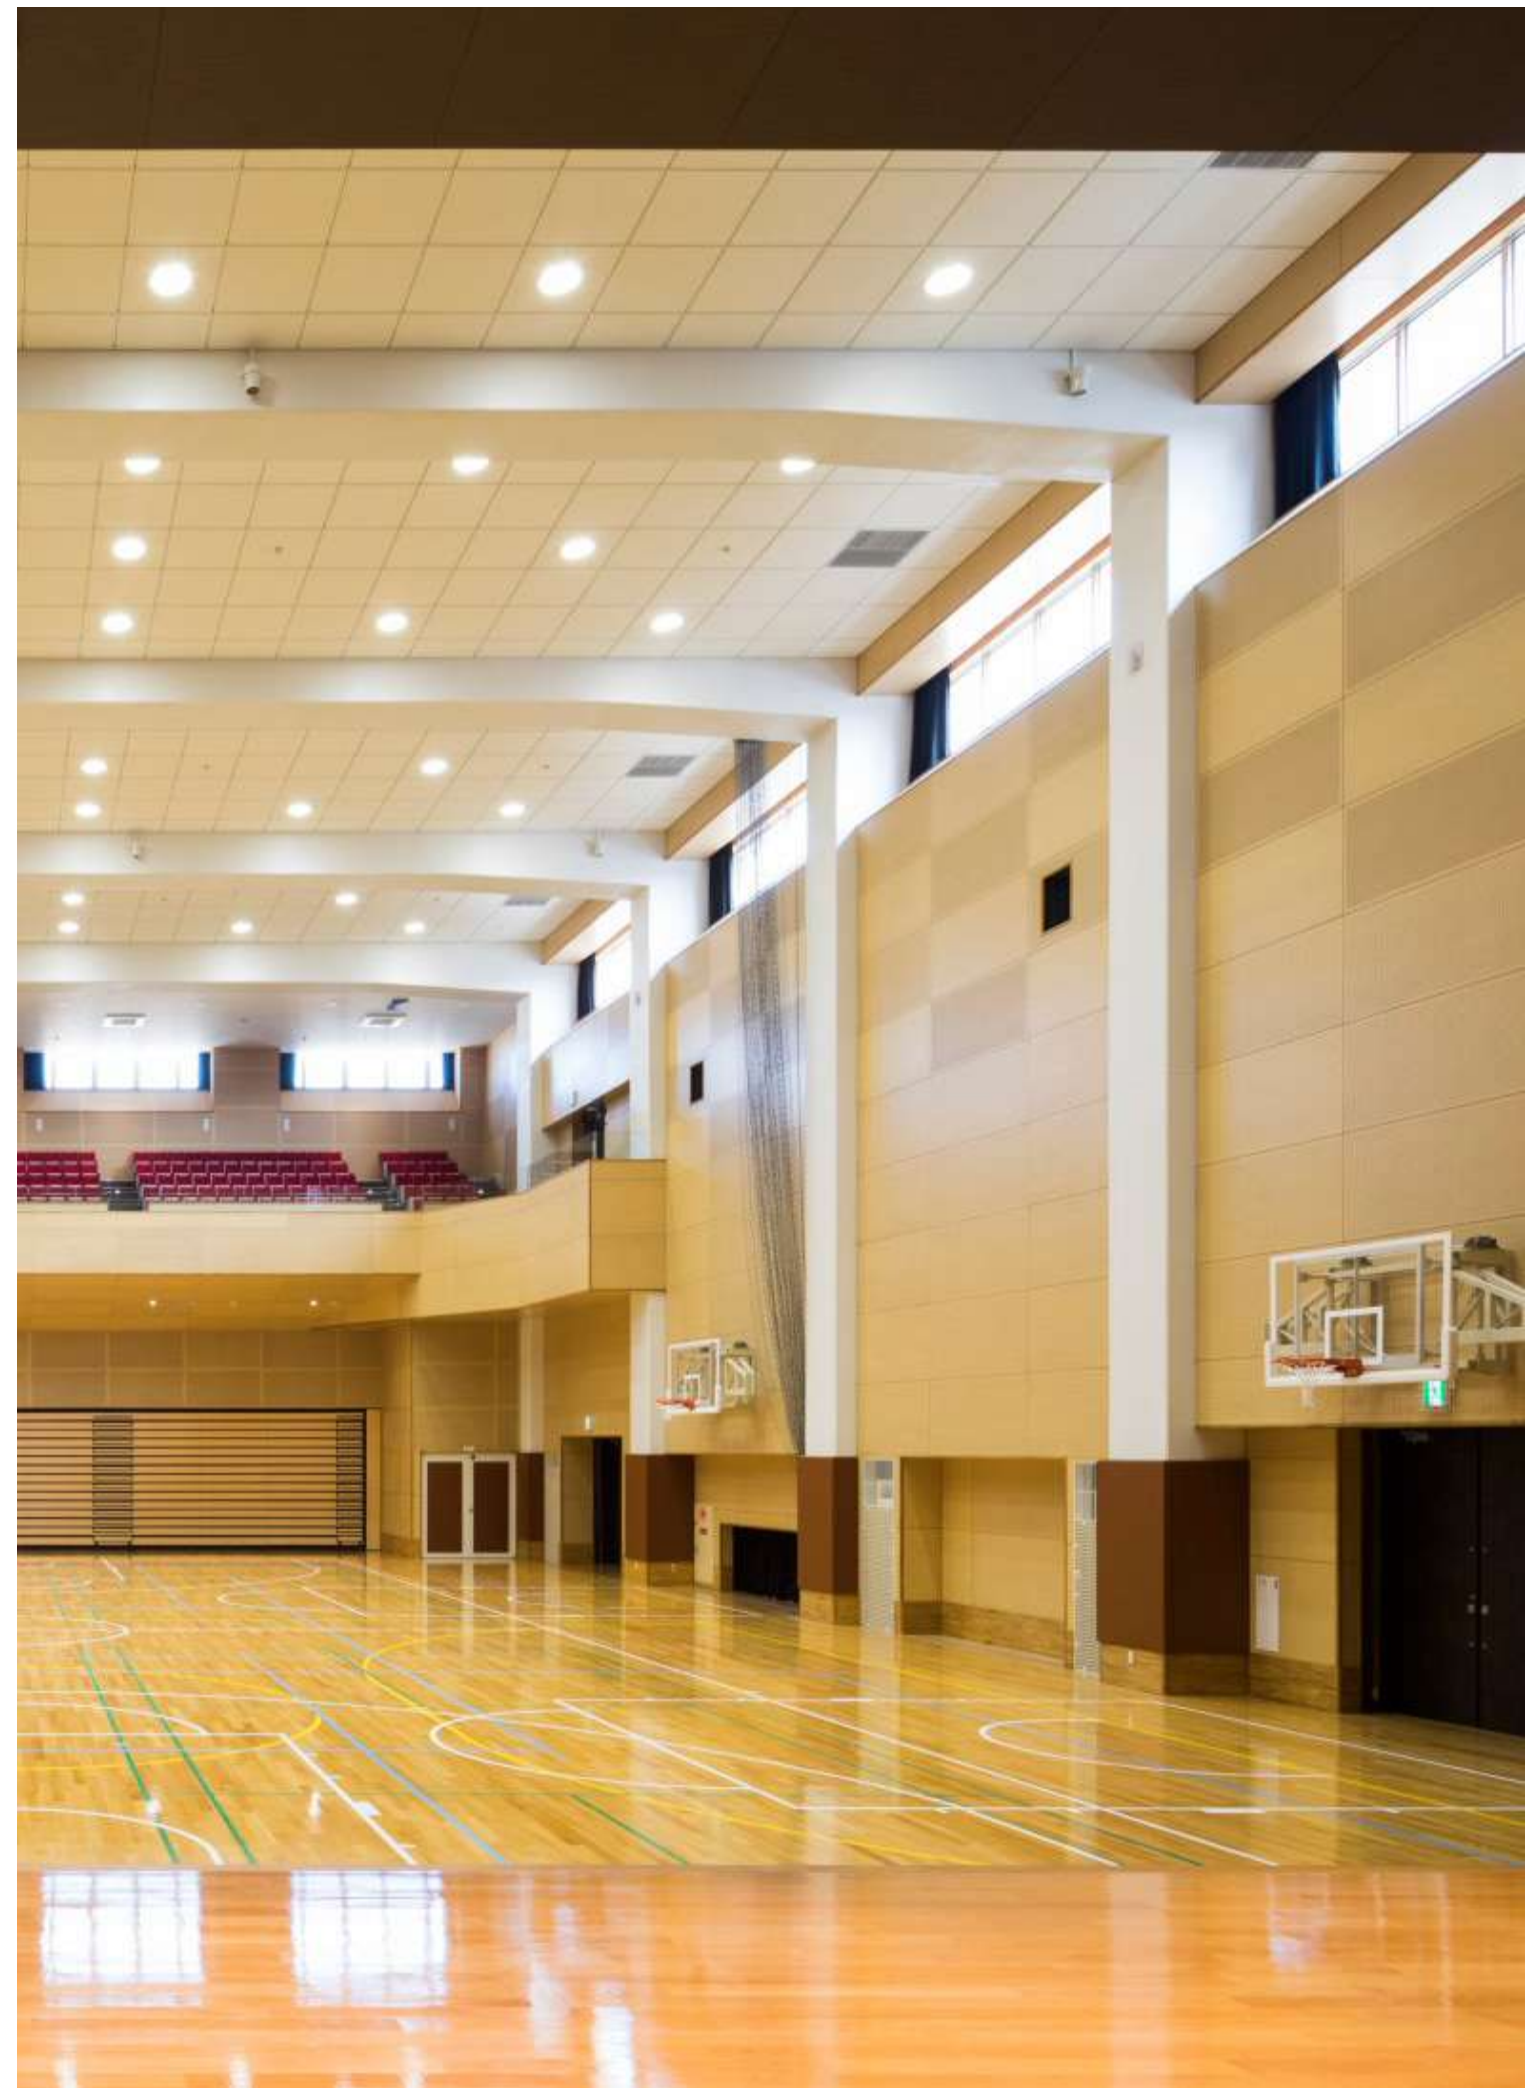

La instalación consta de dos niveles, y la primera planta es lo suficientemente grande como para albergar dos canchas de baloncesto. Lo que hace que este espacio funcione a la vez como auditorio y gimnasio son las plataformas telescópicas móviles, una escalera de asientos que se puede guardar en la pared. Un total de 450 asientos, de 18 metros de ancho por 15 escalones, pueden almacenarse y desplegarse con sólo pulsar un botón de control remoto.

In addition to being able to deploy and retract, the new mobile bleachers can also be moved forward, allowing the installation position to be adjusted. They can be moved to the center or front of the floor as well as to the rear. When you want to secure many seats, you can deploy the mobile bleachers at the rear and arrange the movable chairs in front of them to create a seating capacity of about 1.200 on one floor. For smaller events, the mobile bleachers can be deployed close to the stage to create a seating capacity of 450. The number of seats can be flexibly adjusted according to the scale of the event.

Además de poder desplegarse y plegarse, las nuevas gradas móviles también pueden desplazarse hacia delante, lo que permite ajustar la posición de instalación. Pueden desplazarse al centro o a la parte delantera de la pista, así como a la parte posterior. Cuando se desea una configuración con muchos asientos, se pueden desplegar las gradas móviles en la parte posterior y disponer las sillas delante de ellas para crear un aforo de unos 1.200 asientos en una planta. Para eventos más pequeños, las gradas móviles pueden desplegarse cerca del escenario para crear un aforo de 450 personas. El número de asientos puede ajustarse de forma flexible en función de la escala del evento.

Estableció Chiaki Arai Urban & Architecture Design en 1980 para planificación urbana, diseño urbano, diseño arquitectónico, diseño paisajístico, diseño de interiores e investigación. Ha recibido numerosos premios nacionales e internacionales, incluido el premio AIJ en dos ocasiones en 1996 y 2002, la medalla de oro del premio ARCASIA en 1998 y el Gran Premio JIA 2009.

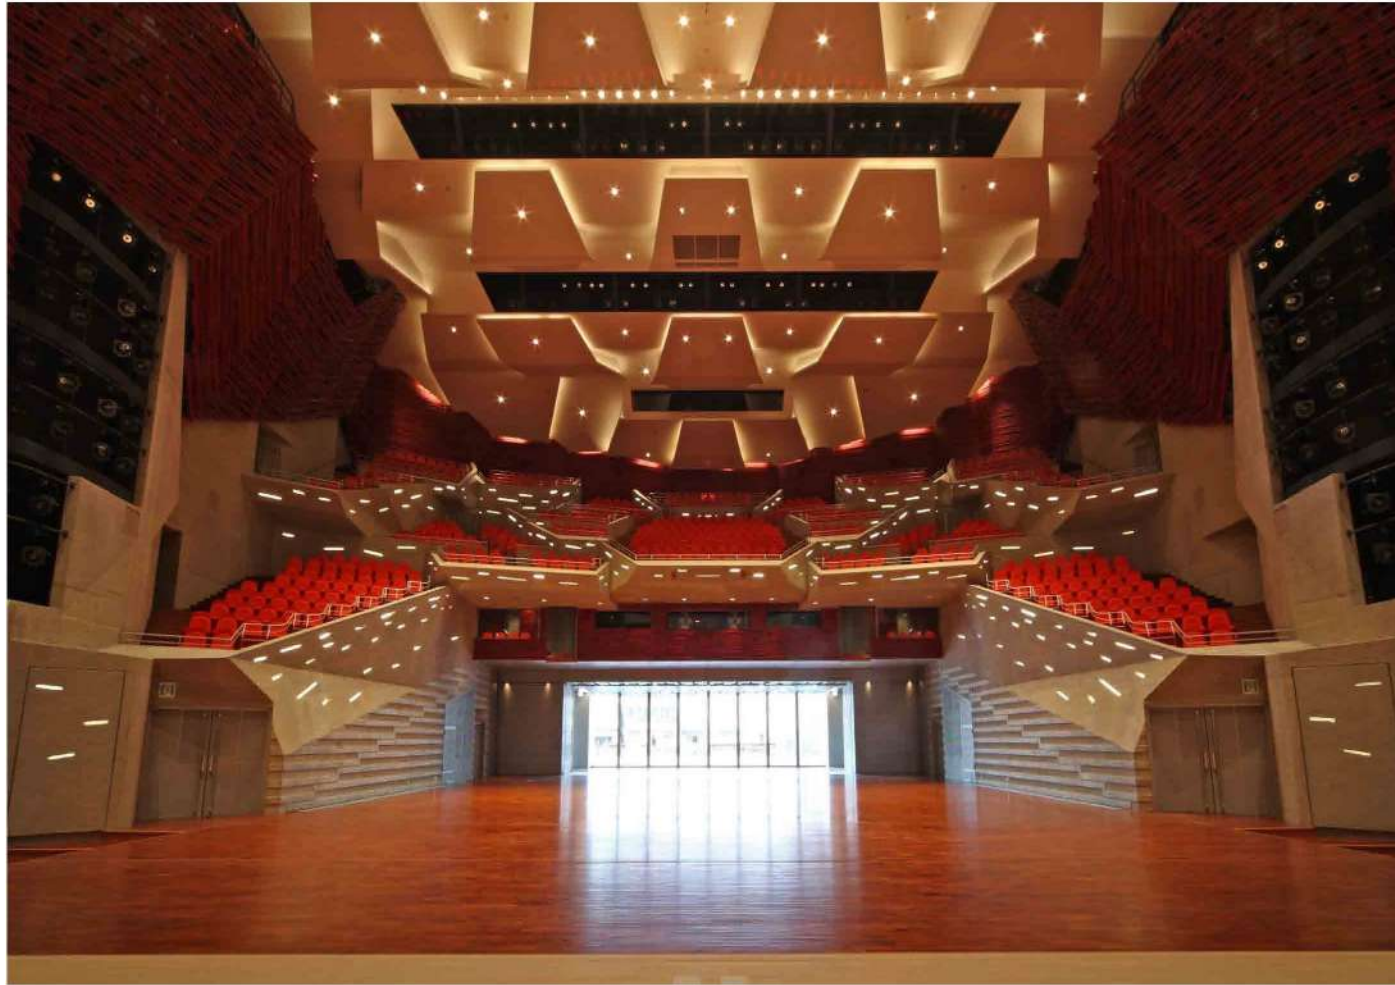

Kadare Cultural Center

Nov 2011 / Seats: 1.110

Akita, Japan

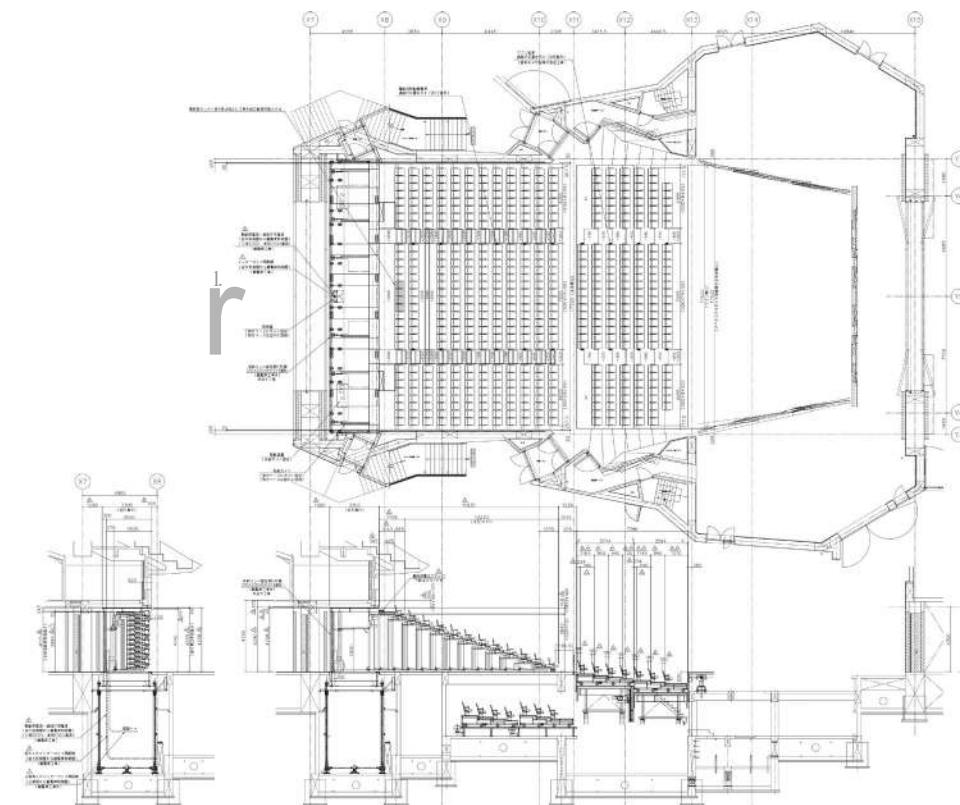

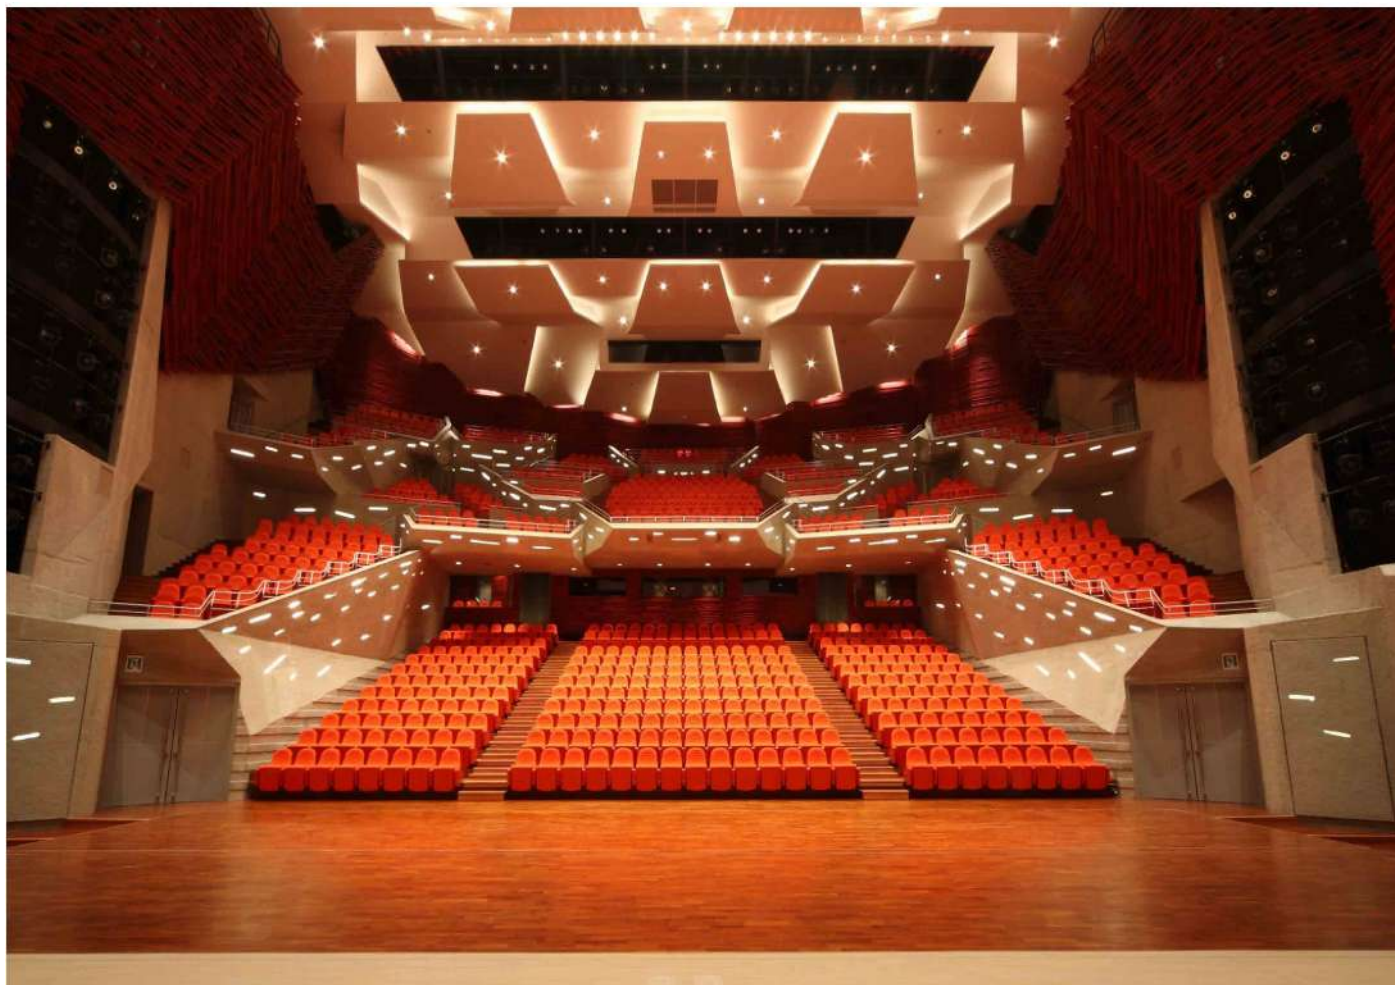

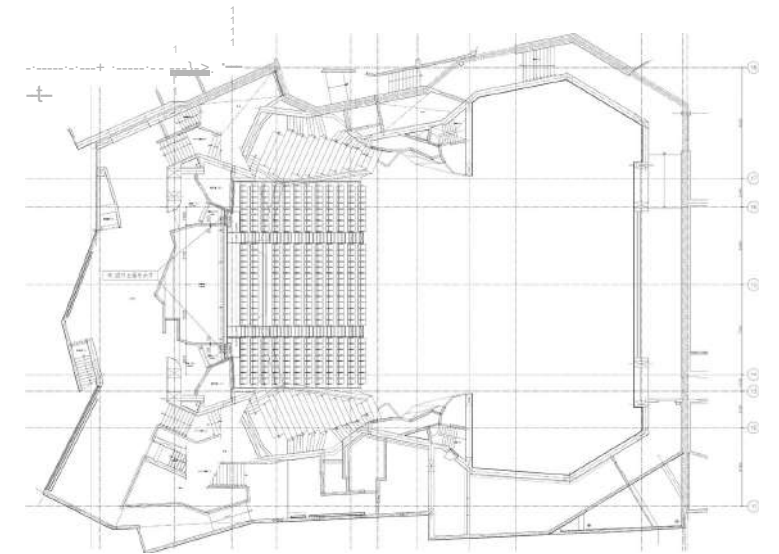

This project is formed by a Multipurpose Theater, Library and Community Center designed by the architectural team Chiaki Arai Urban and Architecture Design. Originally, this project had two plots of land on both sides of a road that the architects unified by connecting them through an interior pedestrian street. Its fissure shape allows natural light into the deep center of the building. Designed in collaboration with the citizenry, the interiors take into account aesthetics, human scale and usability for specific functions. Windows traverse the façade in a manner similar to the way spaces are oriented: an irregular pattern but placed exactly where they are needed.

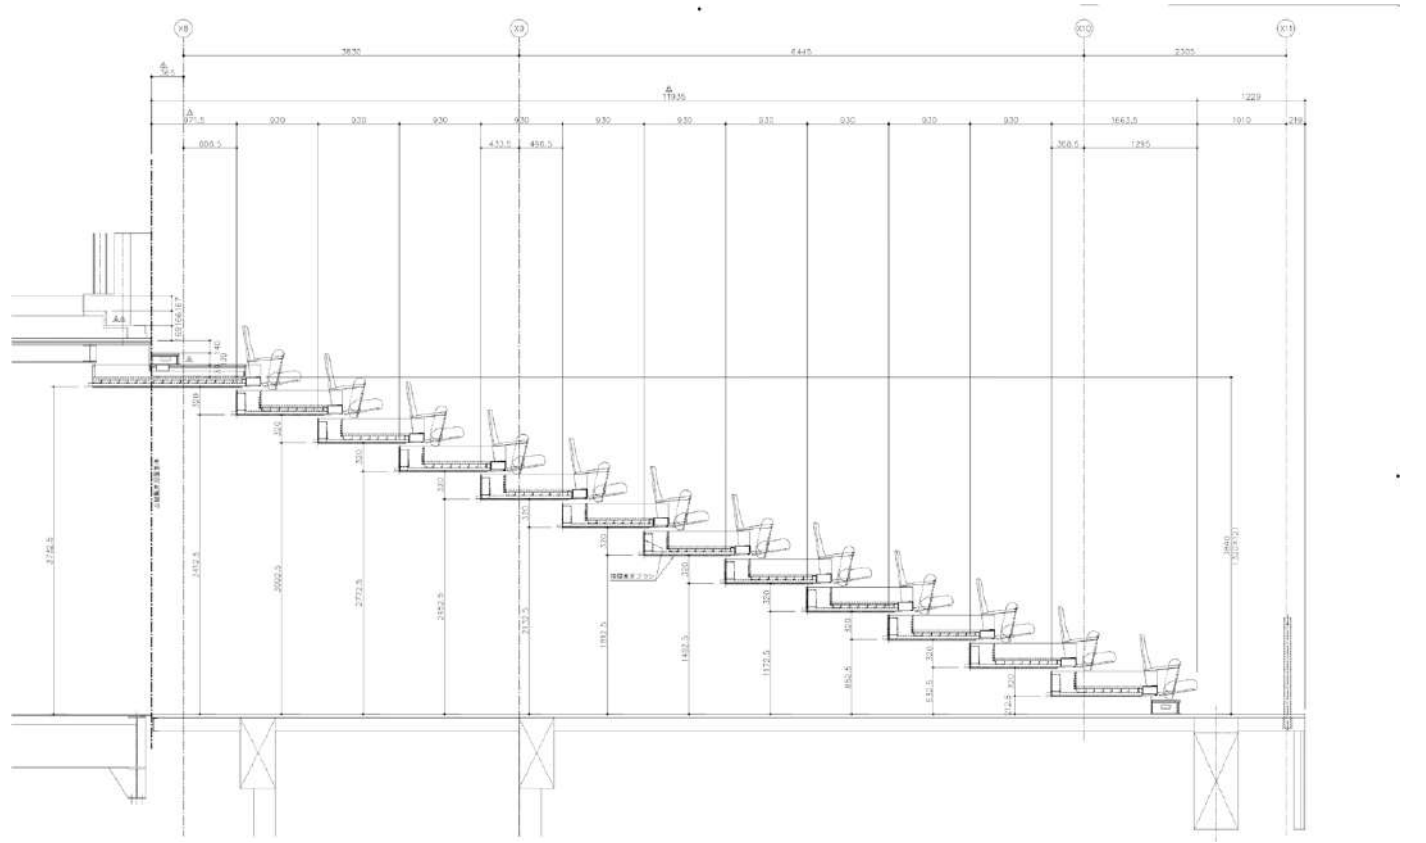

Este proyecto está compuesto por un Teatro Multiuso, Biblioteca y Centro Comunitario diseñado por el equipo de arquitectos Chiaki Arai Urban and Architecture Design. En un principio, este proyecto tenía dos terrenos de ambos lados de una carretera que los arquitectos unificaron conectándolos a través de una calle peatonal interior. Su forma de fisura permite la luz natural en el centro profundo del edificio. Diseñado en colaboración con la ciudadanía, los interiores tienen en cuenta la estética, la escala humana y la usabilidad para funciones específicas. Las ventanas atraviesan la fachada de una manera similar a la forma en que se orientan los espacios: un patrón irregular pero ubicado exactamente donde se necesitan.

The main building is the Multipurpose Theater, which has different configurations, such as flat floor, normal stage in the center to be used for various events. The movable seats adapt to multiple configurations with perfect acoustics designed specifically for this theater. Seating from the second floor can be moved to the back of the theater and stored in the pit below. The stage also lowers to configure a flat floor.

El edificio principal es el Teatro Multiuso, que tiene diferentes configuraciones, tales como suelo plano, escenario normal en el centro para ser utilizado para diversos eventos. Los asientos móviles se adaptan a múltiples configuraciones con una acústica perfecta diseñada para este teatro. Asientos de la primera planta se pueden mover a la parte de atrás del teatro y almacenar en la fosa debajo. El escenario también desciende para configurar un piso plano.

The Millennium Dome O2 Arena

April 2012 / Seats: 5.477
London, United Kingdom

Millennium Dome is a large building located on the banks of the River Thames, the dome is one of the largest single-roofed structures in the world. Its image resembles a large white tent attached to 12 yellow towers 100 meters high. Each of these towers represents the hours of a clock and also each month of the year. It was inaugurated on January 1, 2000, coinciding with the beginning of the new millennium, hosting an exhibition that closed on December 31 of the same year. Its original concept was to host major exhibitions. In 2005 it was re-modelled as a multipurpose space, where concerts and events, both artistic and sporting, could be held. It was voted the best international stadium in the concert industry. The O2 is the stadium that sells more tickets worldwide. It hosts the most important events in the world.

Millennium Dome es un gran edificio ubicado a orillas del río Támesis. La cúpula es una de las mayores estructuras de techo único realizadas en el mundo. Su imagen se asemeja a una gran carpa blanca sujeta a 12 torres amarillas de 100 metros de altura. Cada una de estas torres representa las horas de un reloj y también cada mes del año. Fue inaugurado en 1 de enero del 2000, coincidiendo con el inicio del nuevo milenio, albergando una exposición que se clausuró el 31 de diciembre del mismo año. Su concepto original era albergar importantes exposiciones. En 2005 se remodeló como espacio multi-usos, donde se podían realizar conciertos y eventos, tanto artísticos como deportivos. Elegido como el mejor estadio internacional de la industria de conciertos el O2 es el estadio que más entradas vende a nivel mundial. Es donde se acogen los eventos más importantes del mundo. La espectacular Arena O2, dispone de 23.000 asientos pudiendo albergar una gran variedad de deportes y espectáculos. El diseño del escenario responde a su contexto único: gradas móviles que envuelven el espacio para eventos.

2007 - Audience Systems supplies 3,288 removable Accolade Matrix chairs for the stadium floor and 700 Matrix chairs for the Indigo Club.

2007 - Audience Systems suministra 3.288 sillas Accolade Matrix desmontables para el suelo del estadio y 700 sillas Matrix para el Indigo Club.

2012 - Audience Systems supplied additional conical retractable mobile units for the corner areas, supplemented by 1,000 seats.

2012 - Audience Systems suministra unidades móviles retráctiles cónicas adicionales para las zonas de esquina, complementadas con 1.000 asientos.

2015 - North End Project

Refurbishment project to increase capacity and improve speed/efficiency. Audience Systems solution increased capacity by 200 seats and reduced man hours to set up the system by 60%.

2015 - Proyecto North End

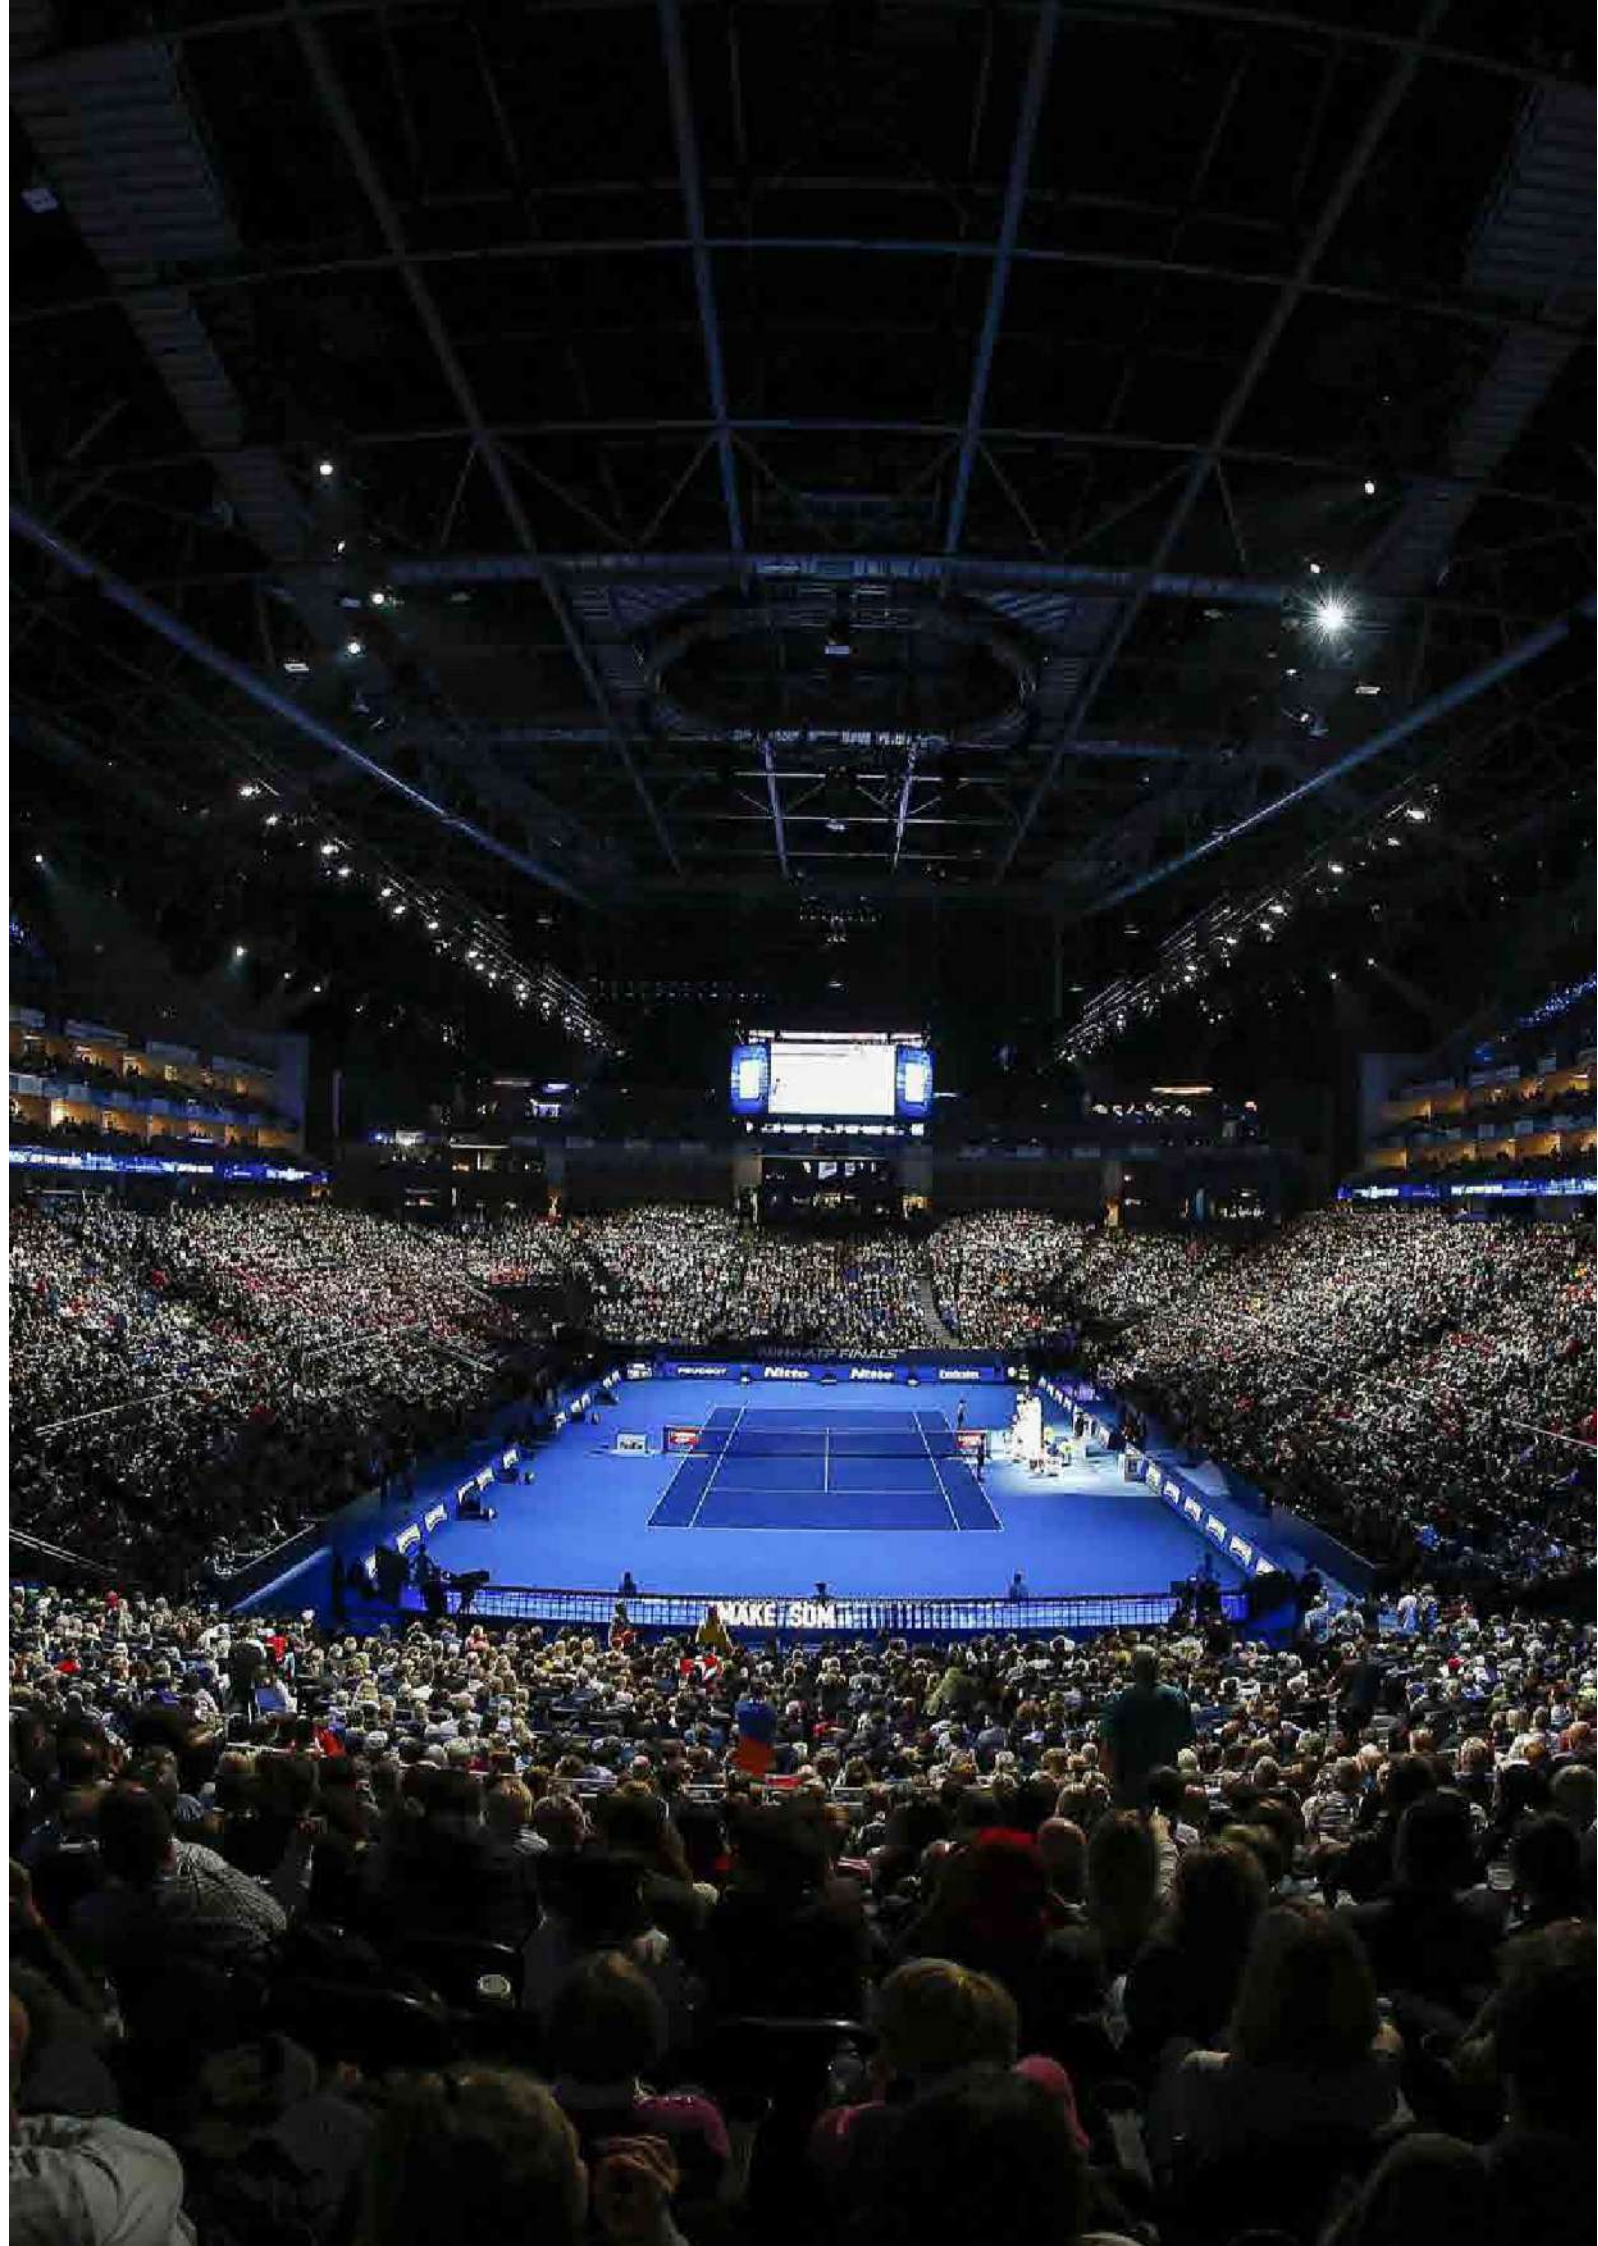

Proyecto de remodelación para aumentar la capacidad y mejorar la velocidad/eficiencia. La solución de Audience Systems aumentó la capacidad en 200 asientos y redujo las horas de trabajo para configurar el sistema en un 60%.

2016 - South End Project

Project to replace the removable seating structures used in full bowl configurations (in the area normally occupied by the stage). The solution reduced the set-up time to around 8 hours, allowing the stadium to host wrestling and use the full bowl configuration more frequently.

2016 - Proyecto South End

Proyecto de sustitución de las estructuras de asientos desmontables utilizadas en las configuraciones "full bowl" (en la zona que normalmente ocupa el escenario). La solución redujo el tiempo de montaje a unas 8 horas, lo que permitió que el estadio acogiera la lucha libre y utilizara la configuración de "full bowl" con más frecuencia.
