SOFTLINE/SLIMLINE/FRONTLINE

SHELVING SYSTEM

BUILT ON EXPERIENCE

Softline/Slimline/Frontline shelving systems are the culmination of years of experience and success

This flexible product concept has evolved over the years and its modular structure and large number of standard components ensure ideal room utilisation and intuitive accommodation of all relevant functions. In addition, the flexibility of the system allows for a variety of tailored solutions. Our design team is always ready to offer advice on functionality, furnishing and design.

For more product details and technical specifications on our standard offerings, please refer to our website www.wearelibrarypeople.com.

THREE SHELVING SYSTEMS – THREE DESIGN EXPRESSIONS

Softline, Slimline and Frontline shelving systems are all based on the same module structure. The main difference between the three systems is the design expression.

SOFTLINE
Softline comes with a 25 mm super elliptical shaped edging of solid wood. The distance between the front edge of the end panel and the front edge of the shelf is 26 mm.

Softline shelving system is delivered as standard with 22 mm thick end panels in light steamed beech veneer or birch veneer or in painted particleboard in any NCS or RAL colour.

SLIMLINE
Slimline comes with a 4 mm flat front edge of solid wood. The distance between the front edge of the end panel and the front edge of the shelf is 26 mm.

Slimline shelving system is delivered as standard with 22 mm thick end panels in light steamed beech veneer or birch veneer or in painted particleboard in any NCS or RAL colour.

FRONTLINE
Frontline end panel has a 4 mm flat front edge of solid wood. The distance between the front edge of the end panel and the front edge of the shelf is 5 mm.

Frontline is available in two standard versions with either 22 or 38 mm thick end panels. Top and bottom shelf for Frontline 38 is delivered as standard in 38 mm.

Frontline shelving system is delivered as standard in light steamed beech veneer or birch veneer or in painted particleboard in any NCS or RAL colour.

FACTS

Product details

All three types of the shelving systems are available as single- and double-sided in a variety of standard heights, depths and widths. Use either a steel frame or wooden back panel to support the shelving, this makes it easy to add or remove shelving bays without dissambling the other bays. The shelving systems are easy to assemble and no special tools or expert assistance is required.

For the shelving systems we offer a wide range of functions: shelves for backedge book supports, shelves with hanging book supports, sloping shelves, corner shelves, magazine- and mulitmedia solutions, cabinets, browsers, castors and end panels with e.g. display option. In addition, we offer different kinds of lighting (shelves, top, LED etc.). By adding one or more of these functions it is possible to create a tailored shelving system that fits your library's specific needs.

SHELVES

- Horizontal and sloping
- Wood and steel
- With and without backedge

PANELS

- End panels in wood
- Display end panels in wood
- Steel back frame or wooden back panels (veneer, painted or melamine)

ACCESSORIES

- Castors
- Signage
- Lighting
- Book supports
- Display
- Browsers

DIMENSIONS

- Heights: 92/122/152/182/212 cm
- Depths: 25/30/40 cm
- Widths: 75/90/100 cm

EVA FOAM CUSHIONS

& TROLLEYS

EVA FOAM CUSHIONS

& TROLLEYS

Comfortable cushions for play and relaxation

Sit down, make yourself comfortable on the soft, velvety-like cushion and take at trip into fantasy land. The cushion is available in 2 designs and various colours and are ideal for use on the floor, benches, staircases etc.

Eva is made of EVA foam without any dangerous phthalates. The non-skid surface is soft, easy to clean and does not leave any marks on the floor.

SLIMLINE/FRONTLINE COURBE

SYSTÈMES DE RAYONNAGE

SLIMLINE/FRONTLINE COURBE

SYSTÈMES DE RAYONNAGE

Créez de beaux rayonnages courbes dans votre bibliothèque

Le rayonnage courbe Slimline/Frontline ouvre un nouvel univers de présentation et de rangement des livres. Créez de petites zones de lecture ou des îlots spécialisés permettant aux lecteurs de s'isoler en agençant des cercles presque complets, ou mettez en place des vagues ouvertes un peu partout dans la bibliothèque.

Ce rayonnage courbe est une évolution du très populaire système de rayonnage Slimline/Frontline, un concept en évolution constante. Ce système de rayonnage permet un certain nombre de solutions standard, ainsi que des solutions individuelles personnalisées.

Les photos montrent les systèmes de rayonnage courbe Slimline/Frontline dans de nombreuses configurations créatives et parfois personnalisées. Pour consulter d'autres sources d'inspiration, nous vous invitons à vous rendre sur notre site Web, où vous pourrez découvrir nos dernières réalisations à travers le monde. Notre équipe commerciale professionnelle est prête à vous aider en répondant à toutes vos questions.

Créez des îlots permettant aux lecteurs de se plonger dans le monde des livres

SLIMLINE/FRONTLINE COURBE

SYSTÈMES DE RAYONNAGE

Détails du produit

Le rayonnage courbe en bois Slimline/Frontline est un rayonnage double face avec étagère supérieure recouverte. Il peut être composé de sections courbes uniquement, ou d'une combinaison de sections droites et courbes. Le rayonnage courbe est disponible en deux versions, 18 ou 26 degrés, montées sur roulettes ou sur pieds réglables. Veuillez noter que la hauteur du rayonnage est la même, qu'il soit monté sur pieds ou sur roulettes.

60/30 Classic Steel Shelving System

DESIGN BCI

60/30 CLASSIC STEEL SHELVING SYSTEM

Functional, flexible and aesthetic

The 60/30 Classic Steel Shelving System is our cantilever shelving offering and is the culmination of years of experience and success. This flexible product concept has evolved over the years and its modular structure and large number of standard components ensure ideal room utilisation and intuitive accommodation of all relevant functions.

In addition, the flexibility of the system allows for a variety of tailored solutions which our design team brings to life for each individual library.

Our broad range of components in the 60/30 Classic Steel Shelving System creates endless possibilities when designing your library. Single-sided, double-sided, wall mounted, end panels in different materials, shelves for different purposes, accessories and much more. And all this in any colour you may require.

For all product details and technical specifications on our standard offerings, please refer to our website www.lammhultslibrarydesign.com.

Ever since the start
80 years ago,
libraries have been
the heart of our business.
Today, we are proud
to call ourselves
library people.

WE ARE **LIBRARY PEOPLE**®

INNOVATIVE LIBRARY DESIGN

Unique library solutions

Since 1929, we have been pioneering libraries of all kinds all over the world. Today, we deliver our experience, expertise and creativity with a flexible system of high-quality products. The result is innovative library design.

Flexible and minimalist design. Contemporary and sustainable solutions. Various design expressions. Fixed and mobile units. Combined display and storage. Integrated search stations and touch screens. We are true innovators of modern library design.

Libraries and their design are our passion and our mission. With commitment and curiosity, experience and expertise, we create innovative, expressive and functional solutions for the modern library.

LIBRARY SPACE

We design the room around the user experience

We work with the library as a creative space where we add ideas, experience, competence, and of course furniture. Your project may be small or big, but our aspiration is always to make a better library that people will use and enjoy. Facilitated by our in-depth understanding of library functionality, new thinking is our foremost contribution.

Use zoning to create rooms and easy navigation. Integrate lighting, signage, graphics and other components for a seamless finish.

Encourage "quick picks" with inspiring displays. Create tempting reading areas and easy browsing with freestanding and integrated browsers.

ARE
LIBRARY
PEOPLE®

FACTS

Product details

60/30 Classic Steel Shelving System is available in two strengths: 60/30 mm and 80/30 mm, referring to the dimensions of the upright (height/width). The wider construction of the 80/30 upright allows for a greater total weight and taller construction.

Uprights are available as single-sided, double-sided and for wall mounting.

DIMENSIONS (cm)

Heights - 60/30	122	152	182	212
Heights - 80/30	199	229	259	
Heights - wall strips*	112.5	142.5	172.5	202.5
Widths	75	90	100	
Depths	22.5	25	30	40

*Wall strips are drilled into the wall 9.5 cm above the floor.

PANELS

- End panels in wood, perforated steel or glass
- Display end panels in wood
- Back panels in wood or as pinboard with fabric
- London end panels and tops in wood or steel

FUNCTIONS

60/30 Round Steel Shelving System

DESIGN BCI

60/30 ROUND STEEL SHELVING SYSTEM

Functional, flexible and aesthetic

The 60/30 Round Steel Shelving System is part of the 60/30 Classic Steel Shelving System and is the culmination of years of experience and success. This flexible product concept has evolved over the years and its modular structure and the large number of standard components ensure ideal room utilisation and intuitive accommodation of all relevant functions.

In addition, the flexibility of the system allows for a variety of tailored solutions which our design team brings to life for each individual library.
60/30 Round Steel Shelving System is a unique shelving system that complements our classic straight shelving system. Use it as complete round shelving or use as a number of bays for a curved expression. Create private spaces for children or quiet reading areas. Enhance specific topics or simply add the round shelving to diversify a simple, straight interior design.
