FR. Le programme e.Bee est bio-inspiré : naturellement simple, rationnel et intuitif. Son plan de travail en forme d'alvéole est tellement évident... qu'il n'existait pas !

Avec le e.Bee, les possibilités d'agencement d'espaces sont infinies. Il répond à toutes les contraintes d'optimisation de surface et propose une confondante multiplicité de configurations.

L'ADN e.Bee a déterminé et induit toutes les pertinences du programme : économie, facilité de mise en œuvre, de montage, modularité et ergonomie.

ENG. The e.Bee program is bio-inspired: naturally simple, rational and intuitive. His cell-shaped work plan is so obvious ... that it did not exist!

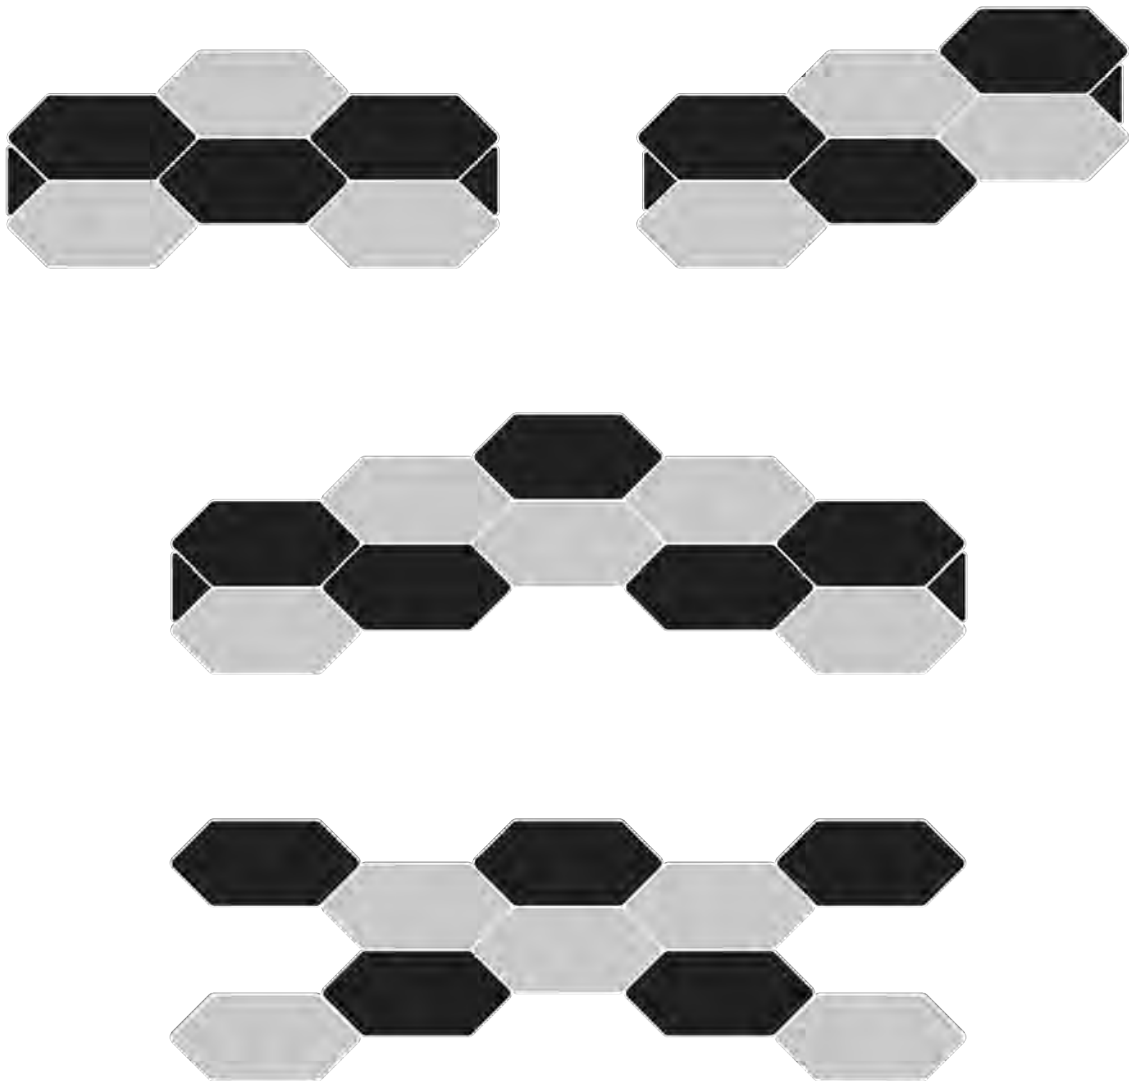

With the e.Bee, space planning possibilities are endless. It answer to all the constraints of surface optimization and proposes a multiplicity of configurations.

The e.Bee DNA has determined and induced all the program relevance: economy, ease of implementation, assembly, modularity and ergonomics.
