Qualità e innovazione Made in Italy

LAMM dal 1959 produce e installa in tutto il mondo sistemi di sedute per sale conferenza, auditorium, università, cinema, teatri e spazi pubblici.

La capacità progettuale, l'ingegnerizzazione e l'organizzazione produttiva permettono all'azienda di rispondere con flessibilità alle esigenze di architetti e committenti, offrendo una vasta gamma di prodotti di serie e soluzioni parzialmente o interamente custom.

L'intero processo, dalla progettazione alla produzione, è realizzato in Italia. L'innovazione abbinata alla qualità artigianale dei prodotti, la cura di ogni dettaglio e la creatività sono valori che negli anni sono stati riconosciuti con numerosi premi internazionali.

L'impegno di LAMM si concretizza anche nell'attenzione che l'azienda rivolge all'ambiente con processi produttivi eco compatibili e sostenibili. La qualità LAMM è attestata dalla conformità alle più importanti certificazioni nazionali e internazionali di prodotto, di processo e di rispetto ambientale.

Made in Italy quality and innovation

Since 1959, LAMM has been producing and installing seating systems for conference rooms, auditoriums, universities, cinemas, theatres and community facilities throughout the world.

Its design capacity, engineering and production organisation allow the company to be flexible in meeting the needs of architects and clients, offering an extensive range of standard products and partially or entirely bespoke solutions.

The entire process, from design to production, is carried out in Italy. Innovation fused with artisan quality products, attention to detail and creativity are the values that have led to numerous international awards over the years.

LAMM's commitment is also expressed through the company's environmental awareness, demonstrated by its eco-friendly and sustainable production processes. LAMM quality is confirmed by its compliance with the most important national and international certification for products, processes and environmental protection.

Evoluzione

Il nuovo logo aziendale e il nuovo show-room esprimono con eloquenza il profondo processo di evoluzione avviato da LAMM all'insegna dell'innovazione delle linee produttive, delle politiche di qualità, dello sviluppo di prodotti capaci di coniugare design esclusivo ed elevato contenuto tecnico, essenze, dei tessuti, dei rivestimenti e dei cicli di verniciatura.

Evolution

The new company logo and show-room eloquently convey the thorough evolution process initiated by LAMM, focused on the innovation of its product lines, quality policies, the development of products able to merge exclusive designs with high technical content, as well as the introduction of new finishes for woods, fabrics, upholstery and painting cycles.

Tradizione

La profonda conoscenza maturata in oltre 60 anni di attività nei processi produttivi e di mercato, consente a LAMM di rispondere in maniera esaustiva alle complesse variabili del progetto contemporaneo delle sedute polifunzionali per ambienti pubblici.

Tradition

The extensive experience LAMM has built up in over 60 years of production and market activities enables the company to respond comprehensively to the complex contemporary design variables of multifunctional seating for public facilities.

Innovazione

Da sempre l'obiettivo di LAMM non è fornire semplici prodotti, ma soluzioni evolute e innovative, attraverso un processo continuo di ricerca sull'uso dei materiali, l'ergonomia e lo sviluppo di tecnologie esclusive, coniugando prestazioni, comfort e design.

Innovation

From the beginning, LAMM's objective has been to supply not simple products but rather advanced, innovative solutions, by continuous research on the use of materials, ergonomics and developing exclusive technology, to combine performance, comfort and design.

Design

Grazie alla collaborazione con importanti designer, dare la miglior forma alle idee è parte fondante della cultura produttiva di LAMM. Lo testimoniano i numerosi premi e riconoscimenti internazionali conseguiti nel campo dell'industrial design.

Design

Through partnerships with leading designers, giving ideas the best shape is an essential part of LAMM's production culture. The many international prizes and recognitions LAMM has been awarded for industrial design demonstrate this.

Made in Italy

I prodotti LAMM sono interamente realizzati in Italia. La sensibilità nella selezione delle materie prime, la cura dei dettagli, la passione che lega saperi artigianali e hi-tech, collocano la produzione nell'alta tradizione del Made in Italy.

Made in Italy

LAMM products are entirely made in Italy. Awareness in the selection of raw materials, attention to detail, and a passion uniting artisan knowledge with hi-tech, position LAMM production in the finest "Made in Italy" tradition.

Ambiente

L'impegno di LAMM per le politiche ambientali va aldilà del semplice rispetto delle leggi in materia. Ricerca di processi virtuosi, riduzione degli sprechi, elevata efficienza energetica, basso impatto ambientale e attenta selezione dei materiali sono solo alcuni degli impegni di cui l'azienda si fa carico in tema di Green Economy.

Environment

LAMM's commitment to environmental policies goes beyond simple compliance with the relevant laws. Seeking virtuous processes, waste reduction, energy efficiency, low environmental impact and careful material selection are just some of the commitments the company takes on in the Green Economy area.

Crediti LEED®

LAMM rientra ufficialmente nella "green community" GREENiTOP®, cioè in quella ristretta cerchia di aziende virtuose che hanno a cuore le performance ambientali dei propri prodotti nel contesto di edifici sostenibili certificati LEED®. I prodotti LAMM contribuiscono infatti in maniera determinante al raggiungimento dei più elevati punteggi in chiave di sostenibilità edilizia secondo lo standard di valutazione LEED®

LEED® Credits

LAMM is officially part of the GREENiTOP® 'green community', i.e. a small group of exemplary companies that care about the environmental performance of their products in the context of LEED®-certified green buildings. LAMM products play a decisive role in helping those who adopt them to achieve the highest building-sustainability scores based on LEED® assessment standards.

Ricerca e sostenibilità

LAMM svolge attività di ricerca e sviluppo anche nel campo della sostenibilità, partecipando a iniziative dedicate al design del riuso, come UMUL (Use More Use Less). L'obiettivo è sperimentare soluzioni innovative volte al reimpiego di materiali e componenti dismessi, così come di sistemi di produzione alternativi, capaci di coniugare risultati di elevata qualità estetica con contenuti ecologici e di sostenibilità.

Research and sustainability

LAMM also conducts research and development in the sustainability field, by participating in reuse design initiatives such as UMUL (Use More Use Less). The objective is to test innovative solutions for reusing disused materials and components, as well as alternative production systems that combine highly aesthetic products with ecological and sustainable content.

Materie prime

I materiali vengono selezionati al fine di limitarne l'impatto ambientale durante le fasi di produzione, lavorazione, riciclaggio e smaltimento. Il legname è certificato FSC®, a garanzia della provenienza da foreste gestite in maniera responsabile. I pannelli in truciolare, prodotti con materiale riciclato, rientrano nella Classe E1 per le emissioni di formaldeide. L'alluminio fa largo impiego di materia prima riciclata e a sua volta viene totalmente riutilizzato a fine ciclo di vita.

Raw materials

Materials are selected to limit their environmental impact during production, processing, recycling and disposal. Timber is FSC® certified, guaranteeing it was sourced from responsibly managed forests. Chipboard panels made of recycled wood are in Class E1 for formaldehyde emissions. Aluminium has a high recycled raw material content and, in turn, can be totally reused at the end of its lifecycle.

Certificazioni

LAMM è certificata secondo lo standard UNI EN ISO 14001. Procedura non obbligatoria che testimonia la volontà di stabilire e attuare un sistema di gestione ambientale, anche attraverso il controllo dell'impatto delle attività aziendali, ricercandone sistematicamente il miglioramento. La certificazione FSC® del tipo Catena di Custodia (Chain of Custody) garantisce la rintracciabilità dei materiali provenienti da foreste gestite in maniera responsabile, dal produttore al cliente finale.

Certifications

LAMM is certified in accordance with the UNI EN ISO 14001 standard. This optional procedure shows the company's will to set up and implement an environmental management system, including through the monitoring of its activities, and systematically seek improvement. The FSC® certification of type Chain of Custody guarantees the traceability of the materials coming from responsibly managed forests, from the producer to the final customer.

Riduzione degli sprechi

Minimizzare lo spreco di materie prime è per LAMM un impegno concreto. Un obiettivo perseguito attraverso numerose sperimentazioni orientate a ottimizzare l'uso delle risorse. Tra gli esempi, la seduta-prototipo Wotu, dove il ciclo di produzione, alimentato al 90% da energia elettrica ricavata termovalorizzando i cascami di legno della produzione, è stato sviluppato per ottenere il prodotto interamente dallo stesso albero.

Waste reduction

Minimising raw material waste is a concrete commitment of LAMM and a goal it pursues with numerous tests aimed at optimising the use of resources. Examples include the prototype-chair Wotu, whose production cycle - 90% powered with electricity obtained by waste-to-energy incineration of wood production waste – was developed to obtain the entire product from the same tree.

Soluzioni e servizi

LAMM è in grado di supportare il cliente in ogni fase, dalla progettazione alla produzione, dallo studio di fattibilità al montaggio, individuando, di volta in volta, la soluzione più idonea a soddisfare le specifiche richieste, compresa la possibilità di personalizzare la fornitura partendo dallo sviluppo di un concept inedito o dalla rielaborazione di prodotti di serie. Tra i servizi offerti dall'azienda si evidenziano: la preventivazione accompagnata dall'elaborazione del layout; la precisa e puntuale produzione, garantendo l'elevata qualità dei prodotti; la logistica delle consegne; l'allestimento, la posa in opera e il collaudo dell'intervento; la prestazione di post-vendita. LAMM inoltre è in grado di fornire progetti "chiavi in mano", assumendo il ruolo di general contractor.

Solutions and services

LAMM can support customers in all phases, from design to production, feasibility study and installation included, finding every time the best solution for specific requests. Moreover, the company offers the possibility of customising the supply by developing a brand-new concept or by redesigning series products. An estimate with its specific layout, the prompt and precise high-quality production, the logistic management of deliveries, the product installation and testing and the after-sales assistance are only some of the services provided. LAMM can also conceive turnkey projects by taking on the role of general contractor.

Acustica

Il comfort acustico è elemento qualitativo essenziale per il buon funzionamento di un'aula, una sala conferenze, un luogo di spettacolo. Per raggiungere ai massimi livelli questo risultato LAMM è in grado di fornire ad architetti e progettisti un servizio dedicato, articolato su due specifici campi d'azione: la specializzazione dei suoi sistemi di sedute, peraltro già concepiti per fornire adeguate prestazioni in questo senso e, non secondariamente, l'allestimento complessivo degli ambienti finalizzato al conseguimento dei più elevati obiettivi di comfort avvalendosi del know-how e dell'esperienza messi a disposizione dalla Caruso Acoustic®, divisione altamente qualificata nella produzione di pannelli fonoassorbenti.

Acoustics

Acoustic comfort is a key element for the proper functioning of a classroom, conference room or performance space. In order to achieve the highest levels of acoustic comfort, LAMM can provide architects and designers with a dedicated service divided into two specific action areas: the specialisation of its seating systems, which have already been designed to offer sufficient performance in this area and, last but not least, the total space outfitting conceived to offer the highest levels of comfort, making use of the expertise provided by Caruso Acoustic®, division highly specialised in the production of sound-absorbing panels.

Public

Per interpretare gli spazi polivalenti, d'accoglienza, rappresentanza, ristorazione, degli ambienti di lavoro, di transito, d'ospitalità e svago, sia pubblici che privati, LAMM ha sviluppato una completa gamma di sedie per collettività e poltrone e divani per sale d'attesa, sgabelli e sedie impilabili, poltroncine pieghevoli e compattabili, sistemi di sedute su barra e tavoli pieghevoli, capace di coniugare al meglio prestazioni e design per soddisfare la domanda più esigente e diversificata

To furnish public and private multipurpose spaces, reception, catering and leisure areas, and work places, LAMM has developed a full range of collectivity chairs, armchairs and sofas for waiting rooms, stackable stools and chairs, packable folding armchairs as well as beam-mounted seating systems and folding tables capable of combining performance with design to satisfy the most diversified demand.

Emilio Nanni

Comfort e versatilità

Sedia polifunzionale che si caratterizza per leggerezza, comfort, essenzialità del design ed esclusiva finitura bicolore. Qualificata da una sagoma morbida e accogliente, che bene si adatta ad accompagnare i movimenti del corpo, risponde alle esigenze dei contesti più diversi, quali contract, ufficio, ambienti pubblici e spazi residenziali contemporanei.

Comfort and versatility

Multi-purpose seat characterised by lightness, comfort, an essential design and an exclusive two-colour finish. Featuring a soft, welcoming shape, that adapts well to the movements of the body, it responds to the needs of a wide range of situations, such as contract seating, offices, public areas and contemporary residential spaces.

Praticità e leggerezza

Progettata per favorire le operazioni di movimentazione e deposito, mediante l'apposito carrello in dotazione, grazie alla grande leggerezza (solo 5 Kg) è facilmente sovrapponibile, sia nella versione a quattro gambe con o senza braccioli e con braccioli e tavoletta, sia nel modello su base a slitta senza braccioli.

Practicality and lightness

Designed to facilitate movement and storage operations, using the special dolly provided, its extreme lightness (just 5 Kg) makes it easy to stack, both in the four-legged version with or without arms and writing tablet, and in the version on slide base without arms.

Tipologie

Soddisfa le più differenziate esigenze di progetto, attraverso una articolata gamma di modelli: sedia fissa su base a quattro gambe o a slitta, con o senza braccioli; sedia girevole su ruote, con o senza braccioli; sgabello su base a slitta; sedute su barra.

Versions

It satisfies a great variety of project needs, by means of an articulated range of versions: fixed seat on four-legged or sled base, with or without arms; swivel chair on castors, with or without arms; stool on sled base; beam-mounted seats.

Finiture

Proposta nell'esclusiva versione bicolore, con studiati abbinamenti cromatici, la monoscocca in polipropilene presenta una superficie differenziata, con finitura opaca antisdrucciolo sul lato seduta e lucida all'esterno. Disponibile anche nella variante imbottita e rivestita in tessuto.

Finishes

Offered in the exclusive two-colour version, with carefully designed colour combinations, the polypropylene single body structure has a differential surface finish, with a non-slip opaque finish on the seat side and a polished external finish. Also available in a padded and fabric covered version.

Lucci e Orlandini

Resistenza e comfort

Sistema di sedute polifunzionali per ambienti di lavoro, studio, collettività, contract, caratterizzato dal design essenziale e da soluzioni costruttive che assicurano elevate prestazioni di resistenza e durata, associate a leggerezza formale e comfort.

Strength and comfort

Multi-purpose seating system for work, study, community, contract areas, featuring a simple design and constructional solutions that provide high levels of strength and durability, associated with formal lightness and comfort.

Sedile e schienale

Lo schienale si sviluppa fino sotto il piano di seduta raccordandosi alla struttura in estruso di alluminio, mentre il sedile, completamente indipendente, è disponibile anche in versione ribaltabile (nel modello a quattro gambe). L'innovativa soluzione valorizza gli aspetti ergonomici e di comfort, assecondando i movimenti e gli adattamenti di postura. Sedile e schienale disponibili in resina, in legno o imbottiti, con rivestimento parziale o completo.

Seat and backrest

The backrest flows under the seat, joining up with the extruded aluminium structure, while the seat itself, which is fully independent, is also available in a tip-up version (in the four-legged version). The innovative solution enhances the ergonomics and comfort, adapting to movements and changes in posture. Seat and backrest are available in wood or padded, with partial or total covering.

Impilabilità

Impilabili e agevolmente trasportabili, mediante l'apposito carrello in dotazione, anche nella versione con braccioli e tavoletta.

Stackability

Stackable and easy to transport, using the dolly provided, even the version with arms and writing tablet.

Praticità e compattezza

Il modello con sedile ribaltabile è dotato di ruote che facilitano l'accatastamento in orizzontale per semplificarne gli spostamenti.

Practicality and compactness

The model with tip-up seat has castors to facilitate horizontal stacking and simplify movements.

Tipologie

Prodotta in diverse tipologie: su base a quattro gambe (con sedile fisso o ribaltabile), su base girevole o su barra; viene proposta in un'ampia gamma di materiali, finiture e colori che consentono di personalizzare ogni intervento secondo specifiche esigenze.

Versions

Produced in various types: on four-legged base (with fixed or tip-up seat), on swivel base or on beam; it is offered in a wide range of materials, finishes and colours that allow each intervention to be customised according to specific needs.

Materiali

Gambe in estruso di alluminio con finitura verniciata o lucidata, fissate al traverso in pressofusione di alluminio. Base girevole a 5 razze in alluminio lucidato o nylon nero completa di ruote o pattini. Barra a 2, 3 o 4 posti in estruso di alluminio verniciato a sezione quadrata. Supporto sedile in pressofusione di alluminio verniciato.

Materials

Extruded aluminium legs with painted or polished finish, attached to a die-cast aluminium cross beam. 5 star swivel base in polished aluminium or black nylon, complete with castors or skids. Square section, painted, extruded aluminium 2, 3 or 4 places beam. Seat support in painted, die-cast aluminium.

Hit

Dante Bonuccelli

Eleganza e polifunzionalità

La sintesi formale, la geometria rigorosa, gli spessori contenuti e l'uso di due soli materiali definiscono una seduta polifunzionale elegante e versatile, adatta all'inserimento nei contesti più diversi dall'ufficio al ristorante, dall'albergo alla casa.

Elegance and multifunctionality

Formal synthesis, clean geometry, limited thickness and the use of just two materials define an elegant and versatile multi-purpose seat, suitable for use in a wide range of contexts, from offices to restaurants, from hotels to homes.

Struttura

Completamente celata dalla scocca in poliuretano, la struttura è composta da un inserto in acciaio scatolato e in acciaio microfuso, integrato nello schienale da elementi flessibili di acciaio armonico, che conferiscono il giusto sostegno e comfort in fase di appoggio. Gambe in tubo d'acciaio a sezione quadrata verniciate o cromate.

Structure

Completely hidden by the polyurethane shell, the structure consists of a boxed steel and micro-welded steel insert, integrated in the backrest by flexible harmonic steel elements, that give just the right amount of support and comfort when resting against them. Square section, tubular steel legs with a painted or mirror polished finish.

Comfort inatteso

L'apparente rigidità strutturale cela una confortevole seduta. La scocca in poliuretano racchiude un complesso telaio elastico in grado di assecondare ergonomicamente il materiale flessibile di sedile e schienale, assicurando elevate prestazioni di comfort.

Unexpected comfort

The apparent structural rigidity hides a comfortable seat. The polyurethane shell comprises a complex elastic frame that adapts the flexible material of seat and backrest in an ergonomic way, ensuring high levels of comfort.

Performance

Sottoposta alle prove di resistenza, carico e sicurezza presso i laboratori del CATAS (Istituto Italiano per la certificazione, ricerca e prove nel settore legno-arredo), la sedia Hit ha ottenuto il punteggio massimo in tutti i test a cui è stata sottoposta.

Performance

Subjected to resistance, load and security tests at CATAS laboratories (Italian institute for the certification, research and tests in the wood-furniture sector), Hit chair has obtained the maximum score in all tests.

Scocca

Scocca in poliuretano integrale ad alta densità con schienale flessibile. Proposta in una selezionata gamma di colori, è trattata con una doppia verniciatura superficiale realizzata in stampo. Disponibile anche nella raffinata versione con rivestimento in pelle.

Shell

Integral, high density polyurethane shell with flexible backrest. Offered in a selected range of colours, it is finished with double painting on the surface, done in the mould. Also available in the refined, leather upholstered version.

Praticità

Impilabile, fino a un massimo di 25 sedie su carrello e di 15 a terra, movimentabili mediante l'apposito carrello in dotazione, garantisce un ingombro di deposito molto contenuto. Il gancio di allineamento in nylon la rende facilmente posizionabile in file ordinate per conferenze.

Functionality

Stackable, in piles of up to 25 seats on dolly and up to 15 seats from the floor, which can be moved using the special dolly provided, it guarantees very restricted storage dimensions. The nylon alignment hook means that it can be positioned with ease in ordered rows for conferences.

Leggerezza e polifunzionalità

Sedia caratterizzata dal design essenziale, sobrio e leggero, orientato a una grande semplificazione costruttiva. Un insieme che ne favorisce l'inserimento in ambiti applicativi diversificati: dall'ufficio, per incontri o riunioni, alla collettività; dalle sale congressi, agli spazi di ristorazione; dalle zone d'attesa, agli ambienti didattici e di formazione.

Lightness and multifunctionality

A chair featuring an essential, sober and light-weight design, aimed at great constructional simplicity. This makes it easy to use in a wide range of applications: from offices, for reception areas or meeting rooms, to community settings; from conference centres to restaurants; from waiting rooms to training areas and classrooms.

Materiali

Disponibile con sedile e schienale in diverse versioni: in multistrato di faggio stampato e curvato, verniciato naturale e in varie finiture, oppure imbottito in poliuretano espanso e rivestito in tessuto o in cuoio.

Materials

Available with seat and backrest in different versions: in moulded and curved beech ply, with natural varnish and in various finishes, or padded with polyurethane foam covered with fabric or in leather.

Flessibilità di utilizzo

Prestazioni di resistenza e durata si associano a notevole flessibilità e praticità d'utilizzo: sedia fissa con o senza braccioli, agganciabile, sovrapponibile e facilmente trasportabile, mediante l'apposito carrello su ruote.

Flexibility of use

Strength and durability are associated with considerable flexibility and practicality of use: fixed chair with or without arms, connectible, stackable and easy to transport, using the special wheeled dolly.

New Modulamm

Orlandini Design

Polifunzionalità

Sistema di sedute per comunità ampiamente utilizzato per sale conferenza, aule didattiche, spazi polifunzionali e zone di attesa. Caratterizzato da un design intramontabile, che si qualifica per la pulizia formale e l'unitarietà estetica, associate a elevate prestazioni tecniche e di comfort.

Multi-purpose

A community seating system widely used for conference rooms, teaching classrooms, multi-functional and waiting areas. Characterised by a timeless design, that stands out for its clean-cut lines and aesthetic unity, associated with high technical performance and comfort.

Classico rivisitato

Il sistema rappresenta l'evoluzione della storica serie Modulamm, riprogettata e attualizzata in ogni suo aspetto: nelle forme, rese più squadrate; nello studio dei dettagli costruttivi; nella selezione delle finiture; nell'uso dei materiali, lavorati secondo le più aggiornate tecnologie; nell'assemblaggio dei componenti, maggiormente coordinati tra loro.

Classic revisited

The system is an evolution of the historic Modulamm series, redesigned and updated in every feature: in its shape, which is made squarer; in the design of its construction details; in the selection of finishes; in the use of materials, processed using the most up-to-date technology; in assembly of the components, which are better coordinated.

Struttura

Sedile e schienale in multistrato, oppure imbottito e rivestito in tessuto. Struttura in acciaio verniciato o cromato.

Structure

Seat and backrest made of plywood, or padded and covered with fabric. Structure in painted or chrome-plated steel.

Tipologie

Oltre alla sedia con quattro gambe (impilabile), è disponibile la versione su barra (a 2, 3, 4 e 5 posti), con sedile fisso o ribaltabile, che estende ulteriormente le possibilità applicative del sistema.

Versions

As well as the four legged chair (stackable), it is also available in a beam-mounted version (from 2,3,4,5 places), with fixed or tip-up seat, further extending the possible applications for the system.

Dolly to transport stacked seats

Conpasso

Lucci e Orlandini

Design e struttura

L'innovativa struttura a balestra qualifica la seduta anche sul piano formale, conferendo all'insieme una microelasticità controllata che distribuisce in modo flessibile le sollecitazioni e garantisce un impatto più morbido con il sedile e lo schienale.

Design and structure

The innovative leaf spring structure also gives it added value on a formal level, providing a controlled micro-elasticity that allows flexible distribution of stress and guarantees a softer impact with the seat and backrest.

Ergonomia e comfort

Programma completo di sedute per collettività, in grado di soddisfare specifiche esigenze funzionali per ambienti diversificati. L'originale meccanismo di autoregolazione dell'assetto dello schienale assicura elevati livelli di comfort e affidabilità.

Ergonomics and comfort

A complete programme of community seats, capable of satisfying specific function needs for a variety of environments. The original self-regulating backrest mechanism ensures high levels of comfort and reliability.

Praticità funzionale

Le sedie impilate si possono spostare mediante un robusto carrello su ruote di facile manovrabilità. La versione con sedile ribaltabile, studiata per essere accatastata in orizzontale, è dotata di ruote unidirezionali, posizionate sulle gambe anteriori, che ne favoriscono la movimentazione.

Functional practicality

The stacked chairs can be moved using a robust and easy-to-handle wheeled dolly. The version with tip-up seat, designed to be stacked horizontally, is fitted with one-way castors on the front legs, to facilitate movement.

Tipologie

Sistema di seduta proposto nella tipologia fissa o ribaltabile con meccanismo manuale o automatico a molla (su richiesta). Sedile e schienale in multistrato di faggio o con imbottitura in poliuretano e rivestimento di tessuto, in un'ampia gamma cromatica. Con le stesse caratteristiche viene prodotto anche nella versione su barra in acciaio ad alta resistenza, attrezzata con sedili fissi o ribaltabili da 2, 3 o 4 posti.

Versions

Seating system offered in the fixed or tip-up version with manual or automatic spring mechanism (on request). Seat and backrest, beech plywood or with polyurethane foam padding and fabric covering, in a wide range of colours. It is also manufactured with the same characteristics in the version on extra-strong steel beam, equipped with fixed or tilting 2, 3 or 4 place seats.

Baldanzi & Novelli

Struttura e componenti

Sedile, schienale e fiancate con struttura interna in acciaio e imbottitura in poliuretano espanso indeformabile schiumato a freddo a ritardata combustione.

Sedile provvisto di cinghie elastiche a elevata resistenza.

Schienale dotato di un particolare dispositivo a molle in acciaio armonico che rende la parte superiore più flessibile e confortevole adattando l'inclinazione alla posizione della schiena.

Fiancate fino a terra, disponibili con piedi fissi, su ruote piroettanti, di colore nero.

Structure and components

Seat, backrest and sides with steel internal structure and flame-retardant, cold-moulded, non-deformable expanded polyurethane foam padding.

Seat with high resistance elastic belts.

Backrest fitted with harmonic steel springs that make its upper part more flexible and comfortable, and accompany every movement of the back through an adjustable inclination.

Floor-length sides, available with fixed feet, swivelling or double castors, in black.

Innovazione e funzionalità

Poltrona di nuova concezione per ambienti polifunzionali, caratterizzata da un esclusivo sistema di movimenti che, pur mantenendo elevati livelli di comfort, permettono a sedile e fiancate di ripiegarsi in sovrapposizione sullo schienale riducendo lo spessore complessivo a soli 20 cm, per essere facilmente spostata e conservata dopo l'utilizzo.

Innovation and functionality

New concept armchair for multi-purpose spaces, characterised by an exclusive movement system that, whilst maintaining high levels of comfort, allows seat and sides to fold up on the backrest, thus reducing its size to only 20 cm., to be easily moved when not in use.

Finiture

Rivestimenti in tessuto, ecopelle o pelle, in un'ampia gamma di colori.
Finitura superiore e inferiore delle fiancate in termoplastica nera.

Finishes

Coverings in fabric, eco-leather or leather in a full range of colours.
Side upper and lower finish in black thermoplastic.

Polo

Design essenziale

Programma di sedute studiato per arredare gli spazi di attesa e d'incontro di ambienti pubblici e privati. Qualificate da un design essenziale e compatto, sobrio e di segno contemporaneo, queste poltrone trasmettono un'immagine molto accogliente.

Versatilità e comfort

Semplicità formale e accurata scelta di rivestimenti e finiture consentono di realizzare aggiornate combinazioni cromatiche e razionali soluzioni compositive. Morbide imbottiture e materiali selezionati assicurano un ottimo grado di comfort e relax nella seduta.

Struttura

Sedute con base in tubolare metallico a sezione quadra e finitura cromata. Struttura interna del sedile in massello con cinghie elastiche. Schienale e fiancate in multistrato. Imbottitura in poliuretano espanso sagomato, di spessore e densità variabili. Rivestimenti in tessuto o pelle non sfoderabili. Tavolini con struttura metallica cromata e piano in legno o in vetro satinato.

Essential design

A programme of seats designed to furnish waiting and meeting areas in public and private environments. Qualified by an essential, compact design, and sober and contemporary in feel, these armchairs communicate a very snug image.

Versatility and comfort

Their formal simplicity and careful choice of coverings and finishes allows up-to-date colour combinations and rational composition solutions to be created. Soft upholstery and selected materials ensure optimal seat comfort and relaxation.

Structure

Seats with chrome-plated, square section metal tubular base. Internal seat structure in solid wood with elastic belts. Plywood backrest and sides. Shaped polyurethane foam padding, with variable thickness and density. Non-removable fabric or leather coverings. Tables with chrome-plated metal structure and top in wood or in satin finish glass.

Tipologie

La serie comprende la poltrona singola, il divano a due o tre posti e i tavolini coordinati, rettangolari e quadrati.

Versions

The series consists of a single armchair, a two or three-seater divan and matching rectangular and square tables.

Coerenza formale e versatilità

Famiglia di sedute contract per contesti di prestigio, proposta in un'ampia gamma di modelli. Permette di risolvere in modo coerente e armonioso le esigenze di arredo di ambienti a differente destinazione: hall, zone soggiorno, sale ristorante, bar, aree di attesa, uffici, sale riunioni.

Formal consistency and versatility

A family of contract seating elements for prestigious uses, available in a wide range of models. Can be used to handle the furnishing needs of various types of environment: halls, living areas, restaurants, bars, waiting rooms, offices, meeting rooms.

Accurate finiture

La cura dei dettagli associata a sapienti lavorazioni artigianali impreziosisce ulteriormente una seduta che si qualifica per il design, sobrio ed elegante, e per le notevoli prestazioni tecniche.

Carefully finished

The attention to detail associated with the work of skilled craftsmen give added value to seating elements that stand out for their sober, elegant design and considerable technical performance.

Tipologie

La serie comprende la sedia e la poltrona con base a quattro gambe o a slitta, la poltrona su base girevole, la poltrona lounge con base fissa a slitta e lo sgabello.

Versions

The series consists of a chair and armchair with four legged or slide base, an armchair with swivel base, a lounge chair with fixed slide base and a stool.

Struttura

Sedile, schienale e braccioli con imbottitura in poliuretano espanso indeformabile schiumato a freddo a ritardata combustione. Struttura interna in tubolare d'acciaio corredata nella parte dello schienale di un complesso telaio elastico in acciaio armonico, che accompagna ogni movimento del corpo, assicurando un adeguato sostegno e notevoli livelli di comfort. Basi in acciaio verniciato o cromato. Rivestimento in tessuto, ecopelle e pelle.

Structure

Seat, backrest and arms with padding in flame retardant cold-moulded non-deformable polyurethane foam. Internal structure in tubular steel, fitted in the backrest part with an elastic frame structure in harmonic steel, which accompanies every movement of the body, giving adequate support and a considerable level of comfort. Painted or chrome-plated steel bases. Fabric, eco-leather and leather covering.

Ingombri ridotti

Sistema di tavoli di servizio per comunità, disponibile in due tipologie: pieghevoli e con piano ribaltabile. La versione pieghevole è agevolmente impilabile, con un notevole recupero dei volumi di ingombro.

Reduced size

Service table system for communities, two types available: folding and drop-down versions. The folding version can be stacked with ease, giving a considerable reduction in storage volume.

Accatastabilità

La versione con piano ribaltabile, gestita da un unico dispositivo di sblocco, consente varie inclinazioni di utilizzo ed è facilmente accatastabile in linea.

Horizontal stackability

The version with drop-down flap, managed by a single release mechanism, can be tilted to various degrees for use and is easy to stack in a line.
